COMMENDATIONS:

From Iton. Lewis D. CAMPERLY, M. C., Ohio.
My family and friends all concur in the opinion that the (Newell) Picture is more illielike than any thing they were saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this. Dask Grave, S. C. June 24th, 1859.

Pror, O. J. Wood: Dear Sir; — Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay predjudicouside and give your Hair Restorative a perfect test:

During the year 1854, I was so unfortunate acto be thrown from my suffey against a rock by the roadside, from which my, head received a most terrible blow; causing a great deal of Irritation, which communicated to the brain and external surface of the head, from the effects of which my hair wa, finally destroyed over the entire surface of the head. From the time of first otal disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription and anneed.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I lagve every reason to bedieve, produced a very bappy result two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most shreered thanks. Rest assured, date vir, I shall recommend your remedy to all inquirers; moreover, I shad use my influence, which I flatter my self to say, is not a little.

You can publish this if you think proper.

Office of the Jeffersonian, Phillippi, Va., bec. 12, 1858, Dear Sir;—I feel it my duty as well as my pleasure, to state to you the following chromatenee, which you can use as you think proper. A gentleman of this place (a lawyer,) has been baid ever since his early youth; so much so. That he was compelled to wear a wig. He was induced to usag a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grow out quite inxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the trath of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the sol ming counties if you have the proper agent. Yours, Ser,

All fisingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process; and the manufacturers submit it, with entire confidence, to the judgment of discriminating housekeepers, bakers, &c. thin its mosture longer cannow any came process, and the whole preparation for the own need not oxecut to minutes.

It is valuable because it is not perishable, and may be rendered available, in places and at thines when years is not within reach, as at sea. In all climates and under all circumstances, it may be adopted, thus obvisting all difficulty of premiting yeast or any other forment, which is frequently of an interior quality, rendering the bread more or less numboles me.

It is also valuable as regards recording, as it has been ascentained that a saying is effected in the four of not less than 16 per cent. In the common process much of the succharine of the flour is lock by being converted into carbonic acid gas, or spirit, and the waste is ineigreed solely for the purpose of generating gas to rake the douch. By using Concentrated Leaven, this weate is avaided, and the gas obtined in a mannor equally efficience. Fernmentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 100 lbs, which, by the common method, orthoging the lower part of the flour or meal, and, in consequence, a barrel of flour weighing 100 lbs, which, by the common method, orthoging the lower conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR, HAYES.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts. Assayer to the Stato of Massachusetts.

I have analyzed the Concentrated Leaven, manufactured by Messes. Edw. Chamberlain & Co., with reference to its purify and elidency of action in producing the effect of yeast in distending dough, and thereby rendering it fit for making bread. This article is skilfully compounded, from perfectly pure -material. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palarakis bread than can bir obtained through the rail of yeast; while for cakes and paster it is invaluable, as it saves all risk and much time of the pastry cook.

"The experiments made by me confirm the statements made by the manufacturers, and prove this compound worthy of public approval and factened due.

STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians am lotizens generally of the United physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning paffery. The consumption of Hostetter's Stomach 'Hiters for the last year anoignled to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements efficacy in all cases of stomachic derangements

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, in it is present to the balate, in it is present to the balate, in it is present to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of Thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them

well as certain to give a permanent increase of beddly strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of accelentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.—CAUTION.—We caution the public against using any of the many initations or counterfeits, but ask for Hostetter's Cleberaters Stomach Bitters' blown on the side of the bottle, and stamped on the metallic cap covering the cork, and
