here the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements

peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is

a Godsend to regions where fever and ague

and various other bilious complaints have counted their victims by hundreds. To be

able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like

disenses, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter

from the stomach, purifies the blood; and imparts renewed vitality to the nervous system,

giving it that tone and energy indispensable

for the restoration of health. It operates upon

the stomach, liver, and other digestive organs,

mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.
Elderly persons may use the Bitters daily as

per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort

declining years, as it is pleasant to the palate,

invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evi-dence of thousands of aged men and women

who have experienced the benefit of using this

preparation while suffering from stomach de-

rangements and general debility; acting under the advice of physicians, they have abandoned

all deleterious drugs and fairly tested the merits of this article. A few words to the

gentler sex. There are certain periods when their cares are so harassing that many of them

sink under the trial. The relation of mother

and child is so absorbingly tender, that the

mother, especially if she he young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity

rrive during the summer season, the wear of

body and mind is generally aggravated. Here,

then, is a necessity for a stimulant to recuperate the energies of the system, and enable the

mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-

tors that receive the endorsement of physicians, because it is agreeable to the taste as

well as certain to give a permanent increase: of Lodily strength.
All those persons, to whom we have particu-

larly referred above, to wit: sufferers from fover and ague, caused by malaria, diarrheea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superamnuated invalids, persons of sedentary

occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial.

TERS can appeal with perfect confidence to physicians and citizens generally of the United tates, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount near one million pottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country
