A. L. SPONSLER. DR. HOOFLAND'S BALSAMIC

FOR THE SPEEDY CURE OF Coughs, Colds, Influenza, Croup, Hoarse ness. Bronchitis, Pneumonia, Diseases of the Bowels, arising from Cold, Incipient Consumption, and for the relief and (if at ail possible) cure of Pa tients in advanc-

the Baisantic-Cordial is antirely a Yegetable production, combining the healing properties of the Baisanty with the invigorating qualities of a Cordial, producing a combination so well adapted to the purposes intended, that there are but fow cases of disease which will not, at he early period, succumb to its healing and life giving properties.

For ages, has the treatment of pulmonary diseases occupied the greater portion of the attention of the Scientific of the medical world, but none acquired more emineured in his treatment of these diseases, than the celebrated Prussian Dr. Hoograms, the originator of the Balsamic Cordial. His life was devoted to the production of remedies that would stand unriveled. How well he has succeeded, the American people are able to fudge: and we positively assert, that no preparations that have ever been placed before them, have conferred the same amount of benedite on suffering humanity, or have cliotted so many commendations from all classes of society, as the remedies of Dr. Hooffand, prepared by Dr. C. M. Jackson & Co., of Philadelphia.

The Cordial is designed for a class of diseases more general and more fatal than any other to which the people of this country are subject—those springing from a "stand roco." That eminent authority, Dr. Bell, says: "I will not say that Colds to our inhabitants what the Placusk and Yatlow Payens are to those of other countries; but I can aver confidently that they where in disease of greater completely and mortality than these latter."

bive will restore the bain and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

Battle Creek. Mich., December 21st, 1858.

Prof. Wood: Thee will please accept a line to inform therethat the hair on my head all fell off over twenty years age, caused by a complicated chronic disease, at tended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have initifully followed the directiour and the hald spot is now covered with hair thick and black, though short, it is also coming in all over my head. Feeling, confident that another large bottle would restore it entirely and permanently, I feel anxious to purchase any more, I would ask thee-if thee woulds not be willing to sand being desituate of means to purchase any more, I would ask thee-if thee woulds not be willing to sand me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Ligonier Noble Co, Indiana, Feb. 5th, 1859.
Paor. O. J. Woon: Bear Sir.—In the latter part of the year 1852, while attending the State and National L. w School of the State of New York, my hair, from a cause unknown to me, commenced failing off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more squimate acquaintances were to recognize me at all.

Takeone made application to the most skillful physicians firthe country, but, receiving no assurances from them that my hair could again be restored, I was forced to becombreconciled to my fate, until, fortunate ly, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your lactorative, and as a result have a rich cout of very soit black hair, which no money can buy.

TO BUSINESS MEN. An excellent chance for reliable business men to secure a profitable manufacturing business requiring but a small capital in its establishment and prosecution.

The manufacture consists in the application of a peculiar composition or enamel to common red bricks, and a variety of other building material, ornamental architectural finishings, ceilings, tiles for floors and for roofing.

a variety of other building material, ornamental architectural finishings, ceiliugs, tiles for floors and for rooting.

This enamel may be tinted of any color, from the purest white to the deepost black, with all the colors and shades, between. It imparts to the articles to which it is applied a hardness and durability almost incredible, and a beauty surpassing that of the rarest and most costly of the variegated marbles, and, unlike them, is impervious to moisture, and will never fade, stain, or other orders, costing but a fractional part of the price of ordinary marble.

It is also valuable for table and stand tops, mantipleces, monuments, and an endiess variety of other articles of staple use. The processor applying the enamel is simple, while the articles enamined will command a ready sale, affording large profits. Responsible parties may procure ilcenses for manufacturing under the patent for city or prominent towns in the United States, by applying to the subscribers. A small tariff on the articles after the articles of annufactured will be required for the use of the invention. Circulars giving full particulars will be forwarded to all applicants.

The superior merit and beauty of this enameled building material to anything in use has the uniqual field indersement of many of the most eminent architects and scientific men of this and other cities.
