HOSTEFFER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH EIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United Brates, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will upeak more powerfully than tolumes of bure assertion or his coning puffery. The consumption of Hostetter's Stomach Bitbers for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one milhor hottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparatian, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only zecommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachie derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of from peting the qualities of the Bitters, but a solid etimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostettor's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Pyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and

imparts renewed vitality to the nervous system, giving it that tone and energy indiputed to for the restoration of health. It operates upon the stomach, liver, and other digestive orgots, mildly but powerfully, and soon restores it on to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters delly as per directions on the bottle, and they will find in a timulant peculiarly adapted to comfort declining years, as it is pleasant to the pulate, tarigorating to the howels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach desangements and general debany; acting under the advice of physicians, they have all and end all deleterious drugs and fairly tested the merits of this article. A few words to the

gontlor sex. There are certain periods when their cares are so harassing that many of them cink under the trul. The relation of mother and child is so absorbinely tender, that the mother, especially if the he young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of edy and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to, bear up under her extancting trials and responsibilities. Nursing mothers dene-rally prefer the Bitters to all other invigeraters that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.
All those porsons, to whom we have particularly referred above, to wire sufferers from fever and ague, caused by malaria, diarrhoss, Cynemiery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and musing mothers, will consult their own physical welfare by giving to Hostester's Celebrated Stemach Bitters a trial.

CAUTION.—We caution the jubile against the many imitations or counterfeits, but ask for Hostiriiks Chirakviro Втонасн Віттвия, and see that each lottle has a words "Dr. J. Hostetter's Stomach Pitters" blown on the side of the bottle and statuted on the metallic cap covering the cook, and observe that our autograph signature is on the
