Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may from its attack, nor is there one which it may not destroy. "The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children anto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon will visit the iniquities of the fathers upon

their children.' Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family kes its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain. and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

### AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Euurrivn and Skin Diseases, St. Anthony's-Fire-Rose, or Environas, Pimples, Pustules, BLOTCHES, BLAINS and Boils, Temors, Tetter and Salt Rillow, Scald Head, Ringworm, Relumatism, Sarindatic and Mercurial Dis-RASLS, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the buman organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once is pain or physical debitity is astom-hed to find his health or energy restored by a remedy at once so simple and inviting.

Act only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to formish gratis my American Almanac, congaining certificates of their cures and directions for their use in the following complaints: Costingues, Hearthury, Headinghe a complaints: Costingues, Hearthury, Headinghe a complaints: ness, Heartburn, Headache or using from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Ination of the Burels, Flatibiney, Loss of Appa-tite, Jundice, and other kindred complaints, arising from a low-state of the body or obstruction of its functions.

The Balsamic Cordial is entirely a Vegetable production, combining the heading properties of the Balsam, with the bryigorating qualities of a Cordial, producing a combination so well adapted to the purposes intended, that there are but few cases of diseases which will not, at an early period, succumb to its healing and life giving properties.

For ages, has the treatment of pulmonary diseases occupied the greater portion of the attention of the scientific of the medical world, but none acquired more eminence in his treatment of those diseases, than the colebrated Prussian Dr. Hootland, but none acquired more eminence in his treatment of those diseases, than the colebrated Prussian Dr. Hootland, but none acquired more eminence in his treatment of these diseases, than the colebrated Prussian Dr. Hootland, needle are able to "udge: and we positively assert, that no preparations that have ever been placed before them, have conferred the same amount of benefits on suffering humanity, or have elletted so many commondations from all classes of sectety, as the remedies of Dr. Hoofland, prepared by Dr. C. M. Jackson & Co., of Philadelphia.

The Cordial is designed for a class of diseases more general and more fittal than any other to which, the people of this country are subject—those springing from a "staton cota." That eminent authority. Dr. Bell, says: "d will not say that Colls to our inhabitants what the Plasquand Yellow Payera is those of other countries; but I can aver confidently that they usher in disease of greater complicity and mortality than these latter."

Horse and Cattle Powders.

These Powders have proved after a trial of several years, to be superior to any preparation of the kind in use. The chief superlocity of these Powders arises from the fact that they are composed of Medicines that have Levative Tonicand Purifying properties. The Laxative elects crudities from the stomach and intestines; the Tonic gives strength to the system of the Herse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a healthy and vigorous chemistion. The use of them improves the wind, strongthens the appearance and provided and spirit of the uoble animal.

These Powders are not intended, as most powders are, to bloot the animal, so as to give him the appearance of being fat when not really so—but, to remove the disease and promote his general health.
