Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and, may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercarial disease, low living, disordered or unhealthy food, impure air, filth and fifthy habits, the depressing vices, and, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatabove an, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disorders which, although not serofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, matery of an ine digans, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

-. AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cane of not only scrofula, but also those other affections which arise from it, such as Employed, and Skin Dispases, Sr. Anthony's Frig. Rose, or Envary vs. Pimples, Penneura, Bloven, Blayes, and Bods, Tispase, Penneura, Blayes, and Bods, Tispase, Theorem, Such and Bods, Tispase, Browney, Syvenith and Sair Rungy, Scraft Microstal, Dispases, Dronsy, Draitist, and indeed, and Complainty and Rose from the blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapartilla is to purify and regenerate this vital fluck, without which sound health is impossible in contemptation of the dispases. without which sound health is impossible in contaminated constitutions.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every seation of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by it use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its vigues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many infector remedies thrust upon the community have failed and been distanted, this has gained friends by every trial, conferred tenefits on the afflicted they can never forget, and produced earres too numerous and too remarkable to be forgotten. be forgotten.

The Balsamic Cordial is entirely a Vegetable production, combining the heating proporties of the Balsam, with the invigorating qualities of a Cerdial, producing a combination so well adapted to the purposes intended, that there are but few cases of disease which will not at an early period, succumb to its heating and life eithing negatives.

ed, that there are but few cases of disease which will not at an early period, succumb to its healing and life giving properties.

For ages, his the treatment of pulmonary diseases occupied the greater perion of the attention of the significant of the medical would, but rone acquired more eminence in his treatment of these diseases, than the celebrated Prusslau Dr. Hoodans, the originator of the Italiania Cordial. His life was devoted to the production-of-remedies that would-stand currivalled. Howevell he has successed, the Augustein people are able to udget and we positively assert, that no preparations that have ever been placed before them, have conferred the same amount of benefits on suffering humanity, or axe elicited so hany commondations from all classes of society, as the remedies of Dr. Hoodand, prepared by Dr. C. POUTZ'S CELEBRATED Horse and Cattle Powders.

These Pawders have proved, after a trial of several years, to be superior to any preparation of the kind in use. The chief superiority of these Powders arises from the ret that they are composed of Medicines that have lax stive Tooleand Parifying properties. The Laxative rects crudities from the stomach and intestines; the Toole gives strongth to the system of the Borse, and the purifying medicines contained in them cleanse the blood, and lay the foundation for a healthy and vigorous circulation. The use of them Immoves the wind. the puritying medicines contained in them cleanse the blood, and lay the foundation for a healthy and vigorous circulation. The use of them improves the wind, strengthons the appetite and gives the horse a fine, smooth and glossy skin—improving the appearance, vigor and spirit of the noble animal.

These Powders are not intended, as most powders are, to bloot the animal, so as to give him the appearance of being fit when not really so—but, to remove the disease and promote his general health.

These Powders will strengthen the stomach and indestines, cleanse them from elfensive matter, and bring them to a healthy state. They are a sare provention of Lung Fover, and a cortain remedy for all diseases incident to the Horse, as Olanders, Yellow Water, Distempers, Founder, Heaves, Slavering, Coughs, Loss of Appetite, and Vital Energy, &c. These Powders if used two or three times a work, through the winter and spring, your Horse will never got the Lung Fover. Colle or Botts. A few doses of these Powders will remove the worst Cough on any Horse. Were owners of Horses to feed a low of these Powders overy year, they might save the lives of many visituable flowes.

- MILCH COWS. The properties this Powder possusses in increasing the quantity of Milk in Covs. gives it an importance and value which should place it in the hands of every person keeping a Cow. In fattening Cattle it gives them an appetite, loosens their hide, and makes them thrive much faster.

HOGS. In all diseases of Swine, as Coughs, Ulcers in the Lungs and Liver, &c., by putting from half a paper to a paper of those Powders in a barrel of Swill, the above diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be provented. Prepared by S. A. FOUTZ, Westminister, Md. 1992. For sale by S. P. PANNEBAKER, Carlisle, Pa., and by all country storekeepers. Price 25 cents per paper, or five papers for one dellar. [Aug. 23, 186]. DAINTS AND OILS.— 10 Tons White Lead. 1000 Gallons of oil. Just eccived with a large assortment of large assortment.
