Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which, this sluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the the effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or fores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constituplaints, but they have far less power to with-stund the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise Such a medicine we supply in

Horse and Cattle Powders.

These Powders have proved, after a trial of several years, to be superfor to any preparation of the kind in use. The chief superfority of these Powders arises from the fact that they are composed of Medicines that have Laxative Tonic and Purifying properties. The Laxative clocks cradities from the stomach, and intestines; the Tonic years to the system of the Horse, and the purifying medicines contained in them cleanes the blood, and lay the foundation for a healthy and vigorous circulation. The use of thom improves the wind, strongthens the appetite and gives the horse a fine, smooth and glossy skin—improving the appearance, vigor and spirit of the noble animal.

These Powders are not intended, as most powders are, to blook the animal, as as to give him the appearance of boing fat when not really so—but, to remove the disease and pr mote his general health.

These Powders will strengthen the stemach and infestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure powention of hung Fever, and a certain remedy for all diseases incident to the Horse, as Glanders, Yellow Water, Distempers, Founder, Heavers, Slavering, Coughs, Loss of Appetite, and Vital Energy, Ac.
