Scrofula, or King's Evil. is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upor

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain,

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

It is combined from the most active remedials that have disorder from the blood, and the rescue of the system from its destructive consequences. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

MOUTZ'S CELEBRATED

Horse and Cattle Powders.

These Powders have proved, after a trial of several years, to be superfor to any preparation of the kind in use. The chief superfority of these Powders arises from the fact that they are composed of Medicines that have civets crudities from the stomach and intestines; the Tonic gives strength to the system of the Horse, and the purifying medicines contained in them cleanes the blood, and lay the foundation for a healthy and vigorous circulation. The use of them improves the wind, strengthens the appetite and kives the horse a fine, smooth and glossy skim—lunpreving the appearance, vigor and spirit of the noble animal.

These Powders are not intended, as most powders are, to bloat the animal, so as to give him the appearance of being fat when not cally so—but, to remove the disease and promote his general health.

These Powders will strengthen the stomach and Intestines, cleanes them from offensive matter, and bring them to a healthy state. They are a sure prevention of Lung Féver, and a certain remedy for all diseases incident to the Horse, ms. Glanders, Yellow Water, Distempers, Founder, Hoaves, Savering, Coughs. Loss of Appetite, and Vital Energy, &c. These Powders if used two or three times a week, through the winter and spring, your Horse will never get the Lung Fever, Colic or Botts. A few does of these Powders will remove the worst Congh. on any Horse. Were owners of Horses to feed a few of these Powders very year, they might save the lives of many valuable Horses. Horse and Cattle Powders.

MILCH COWS. The properties this Powder possesses in increasing the quantity of Milk in Cowe, gives it an importance and value which should place it in the hands of every person keeping a Cow. In fattening Cattle it gives them an apportice, loosens their hide, and makes them thrive much faster.

HOGS. In all diceases of Swine, as Coughs, Ulcers in the Lungsand-Liver, &c., by putting from half a paper to a paper of these Powders, in a barrel of Swill, the above diseases can be cured or entirely provented. By using these Powders the Hog Cholera can be prevented. Propared by S. A. FOUTZ, Westminister, Md. 525-For sale by S. P. PANNEBAKER, Carlisle, Pa., and by all country storekeepers.
