Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, unto the third and fourth generation;" indeed,

will visit the iniquities of the fathers upon Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruntion, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only serofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, ROSE, OF ERVSIPLAS, PIMELES, PESTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEIM, SOULD HIVE, RINGWORM, RHEIMATISM, SYPHILIFIC and MIRGURIAL DISEASES, DROPSY, DYSPERSIA, DIBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Immediately curred, and full vigor restored. This distressing affection—which renders life miscrable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful cansequences that may ensue. Now, who that understands the subject will protend to deny that the power of progreation is lost, sooner by those failing into improper habits than by the pandent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body andmind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, despepsia, palpitation of the heart, indigestom, constitutional debility, a wasting of the frame, cough, consumption, decay and death.
