Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all by the veneral infection. What which this fluid becomes vitiated, above all, by the venereal infection. What-ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upo

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corcuption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from serofulous com plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scroftlous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cumates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this harking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise Such a medicine we supply in

It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrottla, but also those other affica-tions which ari e from it, such as Energive and Skin Dispayers, Sr. Anthony's Pine, Rose, or Environas, Pumples, Puspuls, Bloichis, Blayers and Boils, Tumous, Tletter and Salt Rhilm, Seald Head, Ringworm, Rheumatism, Saphillic and Mercurial Dis-ESSES, DEOFSEY, DYSPETSEA, DEBITITY, and, indeed, ALL COMPLAINES ARESIS IROM VITEATIED OR LATTER BESON.
