P. F. Cooper desires to call the attention, of persons visiting Philadelphia to his new Ground Floor callery, where he has introduced newly patented cameras, capable of taking, in a few segonds, one hundred Photographs, from the small stainp or autographic, to the Imperial and Life Size.

After many experiments he has succeeded in placing his skylight at an improved angle, diffusing the light in equal proportions, and producing that soft gradation of tone which cannot be given by the side and sky lights generally used, and which is of so much importance to the beauty to the beauty of a picture—
It is made of french glass, and is the largest in Philadelphia.

Mr. Cooper has been engaged more than twen ty years in the study and practice of the fine Arts. His bong experience as a Miniature and Portrait Painter is a sufficient guarantee for the perfection of the pictures made at his establishment.

The art of libedizing is well understood; none but the most skilful artists are employed in the respective departments.
