Cumberland Valley Railroad. We have before us the twenty-ninth Annu al Report of the Cumberland Valley Rail road Company, giving the operations of the Due for dividends, road to the 1st of October last. The losses sustained by reason of the rebel invasion are thus given in detail:

Total loss, \$14,916 42 Of which sum the United States Government claim to have paid 1,055 79

The total amount of actual damage to property on the two roads is thus given at \$68,-276 13; and the claim of the government to have paid \$23,799 58 on the Cumberland Valley and \$1,055 79 on the Franklin, is earnestly resisted by Judge Watts, the President of the Company. The credit is claimed on the part of the government for work done to meet its own immediate necessities; not, as Judge Watts says, "intended to serve the permanent road way, but the temporary purpose of carrying troops and supplies for the Company from a claim which has in it so | Secretary and Treasurer; O. He says that "private property was in a measure respected by the rebels, but the property of our Company was destroyed because it was in service of the country, and rendering a service, too, so es-

sential to its protection and salety!" The report announces officially that the business of transportation on the road will henceforth be done by the Company instead assist the Constable. "First, because there is a very large amount of money invested by individuals in rolling stock, ware-houses, and the necessary conveniences of common carriers.— This interest should be cared for, and its owners not forced suddenly out of business at so great a sacrifice of property as it would necessarily cause. And again, the Company should not be called upon suddenly to incur so large an expenditure as will be required to furnish rolling stock enough of their own for the transaction of all the business of the read. The transition is easy by a gradual change; the owners of rolling stock will have agreed price, or to make such other disposition of their cars as will best promote their interest. A resolution of the Board of Managers has committed to the President the authority so to manage this change and so increase the rolling stock of the Company as will best comport with individual interests, and the determined purpose of the Company

to do the carrying business upon their own road." The Cumberland Valley Company leased the Franklin Railroad last spring, upon the terms that they would keep up ordinary repairs and pay over one-third of the gross income. Soon after this arrangement was made the rebels destroyed the Franklin road to the amount of \$15,000, and stopped all business upon it for nearly ninety days, so that the Franklin road furnished nothing like an adequate revenue to meet the interest of its bonds. The Cumberland Valley Company then voluntarily proposed to give their six per cent bonds in exchange for the Franklin seven per cent bonds, and the re port adds that most of the holders "have willingly accepted the proposition and transferred their bonds to us, whilst a few deem the Franklin Railroad bonds, secured by the same mortgage, as adequate security for manning resolution, was passed by a consumer them, and seven per cent unpaid better than six punctually paid." The report closes the fineds of Education, of South Middletoton District, by invitation, do agree to attend the Dickinson Teachers' Institute, which meets in steady habits of those who are employed in the Franklin Railroad bonds, secured by the steady habits of those who are employed in

the business of the Company." We subjoin a statement of the financial condition of the Company, which shows the handsome sum of \$97,475 53 on the right side of balance sheet; Statement of the Cumberland Valley Rail

\$363,050 84 The Cumberland Valley Railroad is perhaps the most carefully and economically managed road in the State. We believe that since it was relaid there has not been a single fatal accident on the road to a passenger, excepting only the collision when the Corn Exchange regiment was being transported, and then the road was in the hands of the military authorities. Had it been under the immediate management of the Superintendent, Col. O. N. Lull, we hazard little in saying that no such accident would have happened. Judge Watts has been the President for many years, and has adminis tered its affairs with great skill and success. The Directors for the year 1864 consist of Hon. F. THE subscriber, because of ill health, and private matters also claiming his attention, feels it his duty to retire from business at least for a season, probably until the present war is ended.

I shall close my business early in February next, and up to that period, will keep up my usual supply of Syrups, Coffees, Tens, Sugars, Spices, Mackerel and such other articles as belong to a stock of Groceries, together with an assertment of Tobacco, (chewing & smoking) & Cigars;

ombracing the choicest qualities, and at the lowest possible prices and profits.

The balance of my stock, composed of CEDAR WARE such as Tubs, Churns, Buckets, a lot of Corn Brooms the choicest in any market—also, China, Glass, Queensware, Crocks,

Baskets, &c., will be sold at reduced prices.

I would embrace this opportunity of tendering my sincerest thanks to the numerous friends and customers who have for a period of over twenty years, given me so generous and liberal a share of their patronage, trusting that my labors to please have not altogether been in vain.

To such as have accounts to settle with me, either five or acquiret. I would state that I will as herefor or against. I would state that I will as here tofore, be found at my usual place of business, where I will be always be happy to see them.

Tileso celebrated Machines are adapted to every variety of Sewing or family wear, from the lightest muslins to the heaviest cloths. They work equally well upon silk, linen, woolen, and cotton goods.—seaming quilting, gathering, hemming, feiling, cording, and braiding—making a beautiful and perfect stitch, alike on both sides—and performing every species of sewing except making button holes and stitching on buttons. Full in tructions for operating the Machine is given gratuitously at the sales rooms. When the Machine is sent some distance so that personal instruction is is sent some distance, so that personal instruction is inconvenient, a card of direction is sent, which is inconvenient, a card of direction is sent, which is a sufficient guide.

The qualities which recommend the Wheeler & Wilson Machine are—

1. Beauty and excellence of stitch, alike on both sites of the fabric sewed.

2. Strength, firmness, and durability of seam, that will not rip nor ravel, and made with—

3. Economy of thread.

4. Its attachments and wide range of application to mirrosass and materials.

to Compactness and elegance of model and finish.

6. Simplicity and thoroughness of construction.

7. Speed, case of operation and management, and instruction may be a made on the construction.
