

and plan their next battle field in North Carolina. The President has signed the Enrollment bill, and it is now a law.

Department of the South.

The Defeat at Olustee, Florida—Union Loss Over one Thousand—Gen. Seymour arrested—Gen. Vogdes put in command and reinforced.

New York, Feb. 27.—The steamer Fulton from Port Royal, which arrived at this port last night, with dates to the 24th, reports that a battle had been fought near Olustee Florida, between our troops and strong force of the rebels, but no particulars are given, all private letters and news despatches, which should have arrived by the Fulton, having been detained by orders from Gen. Gilmore.

ADVANCE TOWARD LAKE CITY. We learn, however, from private sources, that the steamer Cosmopolitan had arrived at Hilton Head, with wounded troops on board from Jacksonville, and bringing a report that the troops which had advanced toward Lake City had been repulsed and driven back toward Jacksonville. Three hundred wounded were on board the Cosmopolitan. It is asserted that we lost one thousand men in killed, wounded, and missing.

LATER. From an officer arrived in the Fulton, we derive some further particulars of the disaster to our forces near Lake City.

Gen. Seymour, who commanded the expedition has been placed under arrest, by order of Gen. Gilmore. This successor is Gen. Vogdes, who left Hilton Head on Tuesday last, with reinforcements for Jacksonville, consisting of an entire division. Our information says it was the opinion of officers who took part in the expedition that our total losses in killed, wounded, and missing, are between 1,200 and 1,500.

THE BATTLE GROUND. Olustee, the place where Gen. Seymour fought and was beaten, is a station on the Jacksonville and Tallahassee Railroad, forty eight miles west of Jacksonville. The Port Royal Free South asserts that Baldwin is held by our forces. This station at the junction of the Jacksonville and the Fernandina Railroads, twenty miles from Jacksonville. A report comes from Hilton Head that Gen. Hardee commanded the rebel forces, and that his troops were a part of Bragg's army it is more likely that they were a part of Beauregard's force. Gen. Gilmore has sent reinforcements to Jacksonville; and as the battle at Olustee was fought just a week ago to-day, it is possible that before this Gen. Vogdes has met the enemy again. The regiments he commands are first-rate material, and unless the enemy is before him in overwhelming force, he will be apt to move ahead towards Tallahassee.

Town and County Matters.

Remember the large Sale of valuable Horses, Cows, and Farming Implements by Geo. Saxton, March 7th 1864, 14 miles south of New Kingston.

FIRE.—On Tuesday morning last a fire broke out in the large frame building on West Penn street owned by Rufus E. Shapley Jr. The house was occupied as a tenement house by eight negro families, all of whom will be thrust out at this inclement season of the year without a roof to shelter them. Our fire companies were present, but were so late getting into action that the entire building was consumed.

SWORD PRESENTATION.—On Wednesday last ten of the sergeants connected with the details from volunteer regiments now on duty at Carlisle Barracks presented Lieut. John M. Thompson, Adjutant of the Volunteer camp at the Barracks, with a very handsome sword. Lieut. Thompson, has both by his official and social demeanor here shown that he was worthy of this gratifying testimonial, and we feel assured that his future conduct will ever be such as fits the honors no case of regret that they have placed so noble a trust in his keeping.

PROFESSOR WILSON'S LECTURE.—On Tuesday evening Prof. Wilson delivered his lecture on "Our place in History," in Rheem's Hall. The extreme eloquence of the weather prevented the attendance of many who were anxious to hear him, but those who did attend were fully repaid by the very instructive and entertaining discourse.

The speaker argued that the history of an individual man was an epitome of the world's history; and that each was divided into three distinct and plainly marked periods—those of the finite, the infinite, and the relation of one to the other. Taking the earliest civilization of the East to correspond with the first or credulous phase of human life, he proved that the second epoch in the history of humanity and the world was exemplified in the Grecian age, when each department of nature was represented by its appropriate deity, worshipped as the highest conception of the infinite.

England was the birth-place of the idea of a supreme deity, and with it came the revelation of the Bible, and the first step in the development of constitutional liberty. Driven therefrom by the bigotry and persecution of the old European ideas, to the rugged shores of America, civil and religious liberty developed themselves into a great free government. The present struggle was God's price for the heinous sin of human slavery. We would pay the price cheerfully, casting the curse from us, and finally accomplish the perfect work of the divine architect.

and gentleman who so kindly assisted during the Fair. Whole amount of Receipts, \$789 34

Disbursements. Paid bill in Philadelphia, Toys, &c. \$31 99 Mrs. Kieffer, Cakes, &c. 29 29 J. Rheem, use of Hall, 13 00 A.
