attention and capital, in a former letter gave the names and some account of the principal ones then discovered. Since as many more have been struck. A few mills have been brought into the mines and more are on the way. They give an additional stimulus to quartz prospectors. When any of the claims change hands it is invariably at an advance. I give one instance among many. Last summer fifty feet of No. 6 on the Dakota, was purchased for \$150. The next purchaser paid \$500; the next \$1200; and the last (15.000) fifteen thousand. These claims are not bought and sold in the heat of speculation but are more than worth the money The country a not nearly prospected, and whoever finds a good claim, expends nothing else in obtaining it than the labor and time necessary to look for it. Still there is not by any means

a claim for every one who chooses to look for Wages have been as high at \$10 a day (payable in dust) but stand at \$5 now. A man can live very comfortably on \$1,00 or \$2 00 per day.

Town and County Matters

All the clothing and dry goods merchants of this place have determined to wiese the stores at 71 o'clock every evening except Saturday on and after Monday 234

We notice an improvement by the County Commissioners in the way of level! ing and draining the public square in which the Court House stands. The improvement as projected, is much better than none, but it would be vastly preferable, and would com prehend but a trifle more cost to imitate the beautifully solded squares of the Presbyterian and Episcopal churches. "A thing of beauty is a joy forever," and we are quite certain the citizens of our town and county would willingly forego the annual adornment of that source with the numerous agricultural implements and other gim-cracks which rendezvouz there at this season, in consideration of the real pleasure which would be afforded by the verdant sod.

It may be useful to state in this connection that the total Fun ted belt of the United States on which interest, is psyable in gold, on the 3d day of March 18-4, was \$70,300,000. The interest on this debt for the con interest of bead year will be \$45,907,126, which the customs inserine in 301s for the current flaces year, coulding June 30th, 1864, has been so har at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government, are largely in excess of the wints of the Towerner for the payment of gold interest, while the recent increase of the tailf will doubtless raise the annual receipts from currous on the same amount of important us to \$1 at 1000 to 0 per annum.
