en to the managers of this scene; the appre ciation of the audience was expressed by rounds of applause and where the effect was so grand, and the arrangement of the statutary particularly so perfect, we refrain from offering any criticism lest we be accused of seeko find fault where it did not exist."

The other scenes presented on this evening were all produced with such excellent effect that we will not attempt discriminanton; judging from the general satisfaction expressed by the spectators we feel authorized to express the opinion that all were highly gratified with the proceedings and felt under obligations to the lady managers for the until a pro-and admirable taste displayed in thus producing so agreeable an entertainment. The evening's performance closed with highly amusing scene of "The Shelling of Carlisle," Comment upon this would be useless since the expressions of the audience plainly showed that many a citizen saw himself represented on the stage as he appeared on the memorable

night of the first of July 1868. Friday evening's programme consisted of a collecton of some of the best scenes that had been already produced interspersed with a few new additions, the principal of which was a representation of "The Conspiracy of Catalina" (1997). This scene representing one of the darkest periods of Roman history and being so analogous to the facts that have so lately transpired within our own country and whose result is now being wrought out in seas of the best blood of the land, could not fail to make a deep impression upon the audience. The scene was executed finely, although some changes in the arrangements might be suggested which would have enhanced the effect yet opinions differ and always must since nothing but a few of the leading facts are historically known. We would however do in justice to the gentleman who represented Cataline if we would not express satisfection at the admirable manner in which he represented this famous conspirator, the position of his figure and expression of his counts nance, all attesting the unswerving determination ming ed with the desperation which

the leadership of such an enterprise required. The evening's performance closed with a repetition of "The Shelling of Carlisle" with of the gallant (?) New York militia and a third scene representing the return of the houseless

Altogether the Tableaux were a complete enterprise was undertaken must be a recommendation to the citizens of Carlise so must its success be a source of gratification to the ladies of the Tableaux whilst the community may well be proud of the patriotism from which it emanated and the superior skill and ability displayed which it can claim as, its SOJOURNER.

RAIL RIAD ACCIDENT.—There was an extra train out on Thursday to bring up, we believe, some of the Rail Road Directors. It followed the morning passenger train up, within about fifteen minutes, and there was a flag on the engine of the regular train to indicate that an extra was coming after it. Mr. an improvement on the previous presentation; this consisted in a just surcasm on the conduct this the extra was coming had taken up two or three rails in the track about two miles east of town, for repairs, and sent a signal man success and as the noble object for which the down the road to stop the train should it ar rive before the rails should be put in. It did come, and was signalled, but the engineer paid no heed to it until too late. The engine was thrown from the track, tearing up the rails for some distance. Fortunately no one injured. This delayed the afternoon passen. ger train eastward and the regular freight train not waiting its full time at Kersville, the two trains came into collision below Myers' curve, three miles east of town. The engineer, Mr. Roney had his collar bone broken and was otherwise severely injured; the the fireman. Mr. Fuller, was injured in the back and hip joint; and the buggage master, Mr. Geo. Cameron, had his leg severely bruised, it was thought broken, but examinacalcureate Address before the graduating class | tion by a surgeon proved the injury to be of Emory Female College will be delivered serious sprain and bruising. N. B. Hats of all kinds made to order at short notic U. S. 10-40 BONDS.

THESE Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all bends issued under this act shall be LXEMPT-FROM TAXATION by or under any state or mudicipal authority. Sub-criptions to these Bonds are received in United States notes or notes of National Banks.—They are to be IRDEEMAD IN COIN, at the pleasure of the Government, at any period not less than ten nor more than fort; years from their date, and until their redemption Five Per Cent Interest will be paid in Coin, on bonds of not over one hundred dollars annually and on all other bonds semi-annually. The interest is payable on the first days of March and Septomber in each able on the first days of March and September in each

year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered bonds are recorded on the tooks of the U.S. Treasurer, and can be transferred only on the owners order. C upon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this lean will have the option of having their bonds draw interest from March 1st, by paying the accrued interest in colu—(or in United States notes, or the notes of National Banks, adding fif y percent for premium,) or receive them drawing interest from the date of subscription and deposit. As these bonds are ENEMET FROM MUNICIPAL OR STATE TAXATION, their value is increased from one to three por cent, per annum, according to the rate of tax levies in values parts of the country.

At the present rate of premium on gold they pay OVER EIGHT per cent interest in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U.S. bonds. In all other forms of indebtaches, the fifth or ability of private parties or stock companies or separate communities only is pleaked for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both pincipal and interest in coin.

These lends may be subscribed for in sums from \$50 up to acy magnitude, on the same terms, and are thus made equally available to the samilest lender and the largest capitalist. They can be converted into money at any mement, and the Loider will have the bon fit. I erest.

Veterinary Surgery.

TO FARMERS AND HORSE DEALERS. R. JOHN SHIFFERT, the celebra-The Holding Shift Ferri, the celebrated Veterinary Surgeon, of Chambersburg Pa, where he has been practising auccessfully for the last sixteen years, respectivilly inform the clitisons of Carlisle and vicinity, that he has permanently located in this place, for the purpose of operating upon DISEASED HORNES, and pledges himself to cure most diseases that this noble animal is suiject to. He cures Wask and Inflamed Eyes, if the nerve is not affected; he condemns cutting Hooks out of the gland of the Eye; it is generally done by men who do not understand the anatomy or diseases, or medical tr atment of the horse, or they would nover do it. He understands thoroughly the treatment and cure of Bone and Bog Spavin; ling Bone Curbs can be rolieved from their lameness without blemishing the horse; Callouses, Poll Evil, Fistulas, Spraius, and sli internal as well as external diseases, are also successfully treated. Old horses, unable to grind their food, can have their teeth operated upon so that they can eat equal to cots. All Mares that cannot fool can be greatly assisted by him.

NIOKING and DUCKING, all Hernia or Ruptured Horses can be ca trated by him; Surgical Operations scientifically performed by him. Farmers who cannot leave their horses can get medicine and disections for using it. He charges nothing for examining a horse, therefore, bring on your cripples. Also the most unmangeable, Eicklong, baking or runaway horses and colts, broke to harness.

Dr. SHIFFERT has, during the last year been principal Veterinary Surgeon in several cervals of the army where he has had from 2000 to 3000 diseased and crippled horses under his charge. He wishes it understood that within the last sixteen years many horses have come under nis notice that have been injured by maltreatment from the hards of man that have ne know ledge of either nanteny or diseases, or medical treatment of the Horse. A great many of these horses he has cured after they have been drugged by such men.
