## The Surrender of Fort Morgan Official Dispatch from Admiral Farragut.

WASHINGTON, Sept. 2, 1861. The Navy Department to-day received the following from Admiral Farragut:

TLAG-SHIP HARTFORD,
WEST GULF BLOCKADING SQUADRON,
MOBILE BAY, Aug, 25, 1864, Sin: I had the honor in my dispatch 31, to state to the Department that Fort Morgan had surrendered on the 23d inst., to the army and navy, though at the time the dispatch was written and mailed the ceremony f surrender had not actually taken place The correspondence preliminary event is herewith forwarded, marked Nos. 1. 2, 3 and 4, and the Department will pre-ceive the terms of capitulation were the same as is the case of Fort Gaines. Gen. Page endeavored to obtain more favorable terms.

but without success.

I regret to say that after the assembling of the Rebel officers at the appointed hour, 2p. m., for the surrender outside the fort, it was discovered on an exmaination of the interior, that most of the guns were spiked, many of the gun carriages wantonly injured, the arms, ammunition, provisions, etc., destroyed, and there was every reason to be lieve this had been done after the white flag same corps.

had been raised. It was also discovered that Gen. Page and several of his officers had no swords to deliver up, and further—that some of these which were surrendered had been broken.

The whole conduct of the officers of Fort Gaines and Fort Morgan presents such a himself in a perfectly untenable position and encumbered with a superfluous number of conscripts, many of whom were mere boys determined to surronder a fort which he could not defend, and in this determination was supported by all his officers save one.

But from the moment he hoisted the white

flag he scrupulously kept everything intact, and in that condition delivered it over whilst Gen. Page and his officers, with childish spite, destroyed guns which they said they would defend to the last, but which they never defended at all, and threw away broke those weapons which they had no e manliness to use against their enemies. for Fort Morgan never fired a gun after the the advance pickets of our army were actually on its glacis.

As before stated, the ceremony of surrender took place at 2 p. m., and that same afternoon all the garrison were sent to New-Orleans in the U. S. steamers Tennessee and Bienville, where they arrived safely.

Very respectfully, your ob't serv't.

The rebel pickets refuse to believe that At-Inita has fallen, and have become very friendly, approaching close to our lines with passes from their officers, for the purpose of trading, (apparently,) but all having Jeff Davis' proclamation of foreign protection and safe conduct to deserters. They hope to largely reduce our ranks by the new move. They purchase all the edibles they can get from our men, giving greenbacks or tobacco in exchange, of which articles they seem to

have large supplies.

General Gibbon has been temporarily assigned to the command of the Eighteenth corps.
Col. Smith, of the First division, a brave and capable officer, is in command of Gibbon's division of the Second corps.

SEP. STH.—Last night about 11 o'clock our

batteries along the entrenchments opened and saluted the enemy with a terrific fire for an hour in honor of the fall of Atlanta. The enemy's guns replied sharply, and the air was filled with bursting shells. This morning not a shot is heard.

U. S. 7-30 LOAN.

THE Secretary of the Treastiry gives dotted that subscriptions will be facilitied for Counch Notice, payable three years from August 18th, 18th, with semi-annual interest at the rate of seven and three-tenths per cook, per annual,—principal and interest both to be paid to lawfil mongy.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twen ty years from their date, as the Government may effect. They will be issued in denominations of \$60, \$100, \$100, \$100, \$100, and \$6,000, and all subscriptions must be for fifty dollars or some muitiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared. As the notes draw interest from August 16, persons making deposits abbsequent to that date must pay the interest accrued from date of note to date of deposit. Partice depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one-precent, which will be paid by the Treasury Department upon the receipt of a bill for the amount, extilled to by the collect with whom the deposit was made. No deductions for commissions must be made from the deposits.

SPECIAL ADVANTAGES OF THIS U. S. 7-30 LOAN.

SPECIAL ADVANTAGES OF THIS It is a National Savings Bann; offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are other in government securities or in notes or bonds payable in government these. eruncent gaper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their side and accumulated interest, and are the best security with banks as solitaterals for dis-

Convertible into a Six per cent. 5-20 Gold Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is worth about three per cent. per annum, for the cultout rate for 5-20 Bonds is not less than integpr cent. premium, and before the war the premium on six per cent. U. 8, stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the predent market rate, is not less than ten per cent. per annum.

Its Exemption from State of Nunicipal Taxation. EBut aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Trensury notes from local taxation. On the average, this exemption is worth about two per cent. per anum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great induced.

It is bolived that no securities offer so great inducoments to lenders as those issued by the government.
In all other forms of indebtedness, the faith of ability of
private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole
property of the country is held to secure the discharge
of all obligations of the United States.
While the government offers the most liberal terms
for its loans, it believes that the very strongest appeal
will be to the loyalty and patriotism of the prophs.
Duplicate certificates will be issued for all deposits.
The party depositing must endorse upon the original
certificate the denomination of notes required, and
whether they are to be issued in blank or payable to
order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasurv Department.
Subscrutzions will be because by the Treasure Busscrutzions will be because of the second

ITY Department.
Subscaccine will be received by the Treasurer
of the United States, at Washington, the several Assisant Treasurers and designated Depositaries, and by the
FIRST NATIONAL BANK OF CARLISLE, PA.,

and by all National Banks which are depositaries of public money, and ALL RESPECTABLE BANKS AND BANKERS broughout the country will give further information AFFORD EVERY PACILITY TO SUBSCRIBERS.

THE poculiar tains or infection which we call Schorula lurks in the constitutions the constitutions of multitudes of men. It either produced or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes interest of the vital forces in their vigorous action, and leaves the system to

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver comduce indigestion, dyspepsia, and liver com-plaints; on the skin, eruntive and plaints; on the skin, eruptive and cutaneous affections. These all having the same originarequire the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" liealthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antiis compounded from the most effectual antidotes that medical science has discovered for
this afflicting distemper, and for the cure of the
disorders it entails. That it is far superior to
any other remedy yet devised, is known by all
who have given it a trial. That it does combine virtues truly extraordinary in their effect
upon this class of complaints, is indisputably
proven by the great multitude of publicly
known and remarkable cures it has made of

the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from the county of the language white berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Atri's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are lealthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequinte to its cure. This we now offer to the public under the name of Ayer's Sansaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempors which lurk within the system or burst out on any part of it. Female Weaknesses, and, indeed, the whole lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, sad there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL, The World's Great Remedy for

of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it over has been, and that it may be relied on to do all it has ever done.
