U. S. 7-30 LOAN.

THE Secretary of the Treasury gives notice that subscriptions will be received for coupon Notes, payable three years from August 15th, 1804, with semi-annual interest at the rate of seven and three-tenths per cent. per annua,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twen ty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared. As the notes draw interest from August 15, rersons making deposits subsequent to that date must pay the luterest accuract from date of note to date of deposit.

Patented Duplex Elliptic Steel Spring Skirts.

This invention consists of Duplex for two Elliptic Steel Springs, ingoniously braided tightly and firmly togstherledge to edge, making the toughest, most Elastic Plexible and Durable Spring ever used, enabling the wearer in consequence of its great clasticity and flexibleness, to place and fold it when in use as early and with the same convenience as Silk or MUS-LIN RESS. It entirely objectes and silences the only objections to Hoop Ekirts, viz. the annoyance to the wearer as well as the public, especially in crowded assemblies, Carriages, Rallroad Cars, Church Pews, or in any crowded place, from the difficulty of contracting them and occupying a small space. This entitley removes the difficulty, while giving the Skirt the usual and full and symmetrated form, and the lightest, most stylish and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure and comfort and great convenience of wearing one of the Duplex Elliptic Spring Skirts for a single day, will never atterwards willingly derivable, and a great improvement over other kinds of, Skirts for Misses and Young Ladies who were about dresses, the clasticity and flexibility of them prevents when coming in contact with anything cowding the Hoop close to the person, from pushing out the other side of the Hoop or dress; and again, they are so much more durable and not likely to bend or break or get out of shape. The bottom rods on all the Skirts are also double steel and twice or DOUBLE COV-RED to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c.; &c. which they are constantly subject to when in use. All are made of the best quality of corded Tapes, and every part of the Skirt is of the yeary best materials; it is guaranteed in overy respect, to be by far the best, most comfortable, and most durable Skirts ever made.

THE peculiar taint o infection which we call SCROFULA lurks in the constitutions of multitudes of men. It multitudes of men. It either produces or is produced by an enfechled, vitiated state of the blood, wherein that fluid becomes interesting the vital forces in their vigorous action, and leaves the system to fail into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above, all, by

habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh." not have health; with that "life of the flesh"

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great problems of publicly oven by the great multitude of publicly the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for granuitous distribution, wherein may be learned the directions for its use, and some o Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies and thus leaves its victims far more subject to disease tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This ury Department.
Subschedurtions with he have been a loss for its times has feel its to spend your meet. This fether threasurers and designated Depositaries, and by the ATLES SUBSUPERILLA, although it is composed of ingredients, some of which exceed the best of Sussiparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the

blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-tions, and thus expels the distempers which lark within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsapacilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there

remains no question of its surpassing excellence for the cure of the afflicting discuss it is in-tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

Manhood: how Lost, how Restored!

Just published, a new edition of Dr.
Culverwell's Celebrated Essay on the
radical cure (without medicine) of
Spermatorrhea, or seminal Weakness,
Involuntary Sominal Losses, Impotency, Mental and
Physical Incapacity, Impediments to Marriage, etc;
also, Consumption. Spielepsy, and Fits, induced by selfindulgence or sexual extravagance.
Trice, in a sealed envelope, only 6 cents.
The celebrated author in this admirable essay clearly
demonstrates, from a thirty years successful practice,
that the alarming consequences of soilabuse may be
radically cured without the dangerous use of internal
medicine or the application of the knife—pointing out
a mode of cure, at once simple, certain and effectual,
by means of which every sufferer, no matter what his
condition may be, may cure himself cheaply, privately
and radically.

This Lecture should be in the hands of every youth
and every man in the land.
