U. S. 7-30 LOAN. THE Secretary of the Treasury gives notice that subscriptions will be received for Coupon Notes, payable three years from August 15th, 1864, with semi-annual interest at the rate of seven 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twen ty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100. \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared. As the notes draw interest from August 15, tersons making deposits subsequent to that date must pay the As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent, which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits. SPECIAL ADVANTAGES OF THIS

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security Any savings lank which pays its depositors in U.S. Notes, considers that it is paying in the best dreutating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government hance. ment securities or in notes or comes payane in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertible into a Six per cent. 5-2 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is worth about three per cent. per annum, for the current rate for 6-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S., stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the p event market rate, is not less than ten per cent. per annum. Its Exemption from State or Nunicipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress exempts all-bonds and Treasury notes from local taxation. Un the giverage this exemption is worth about two percent per annum, according to the rate of taxation in various parts of according to the rate of taxation in various parts of the country. It is believed that no securities offer so great inducements to lenders as these issued by the government in all other forms of indebtedness, the faither ability of private parties, or stock companies, or separate countrilities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty on a patriotism of the people.

Duplicate certificates will be issued for all deposits The party depositing must enderse upor the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to cortineate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasorder. When sondoreed, in the so the with the oncer receiving the deposit, to be forwarded to the Treasury Department.
Supsencentrions will be received by the Treasure
of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by th

A NEW AND GREAT INVENTION IN

The New Skirt for 1864. HOOP SKIRTS.

The Duplex Elliptic (or double) Steel Spring. J. I. & J. O. WEST, NO. 97 CHAMBERS STREET NEW YORK, ARE THE OWNERS OF THE PATENT AND EXCLUSIVE MANUFACTURERS

OF THIS J. R. BRADLEY'S. Patented Duplex Elliptic Steel Spring Skirts.

This invention consists of Duplex [or two] Elliptic Steel Springs, ingeniously braided lightly and firmly together edge to edge, making the toughest most Elastic Flexible and Durable Spring ever used, enabling the wearer in consequence of its great elasticity and fertibleness, to place and fold it when in use as easily and with the deame convenience as SLLK or BUSLIN DRESS. It entirely obviates and silences the only objections to Hoop Ekrts, viz: the annoyance to the wearer as well as the public, especially in crowds a assemblies, Carriages, Railroad Cars, Church Pews, or in any crowded place, from the difficulty of contracting them and occupying a small spars. This en-

si assemblies, Carriages, Railroad Cars, Church Pews, or in any crowded place, from the difficulty of contracting them and occupying a small space. This entitlely remove the difficulty, while giving the kirthe usual and full and symmetrated form, and the lightest, most stylish and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure and comfort and great convenience of wearing one of the Duplex Elliptic Spring Skirts for a single day, will never atterwards willingly dispense with the use of them. They are also equally desirable, and a great improvement over other kinds of Skirts for Missos and Young Ladies who were short dresses, the elasticity and firstbility of them provents when coming in contact with anything crowding the Hoop close to the person, from pushing out the other side of the Hoop or dress; and again, they are so much more durable and not likely to bend or break or get out of shape. The bottom rods on all the Skirts are also double steel and twice or DOUBLE COVERED to prevent the covering from wearing off the rods when dragging down stairs atone steps, &c., &c. which they are constantly subject to when in use. All are made of the Bkirt is sof the very best materials; it is guaranteed in every respect, to be byfar the best, most comfortable, and most durable Skirts ever made.

contamination is variously caused by incremial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniqui-ties of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scroula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, emptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you can not have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably moven by the great multitude of publicly mown and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual ALMANAC, which is furnished to the dauguists for gratimous distribution, wherein may be hearned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to alloid relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies and thus

leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is ad quate to its cure. This we now offer to the public under the name of Aver's Sansaparita although it is comsed of ingredients, some of which exceed the posed of ingredients, some of which exceed the best of Sursespacifia in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the the food corruptions that rot and tester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-tions, and thus expels the distempers which

lark within the system or burst out on any We know the public have been deceived by many compounds of Sursupavilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any

STRAW HATS. other which has been before the people, and is far more effectual than any other which has ever been available to them.

Carlisle Foundry, AND FARM IMPLEMENT DEPOT! GARDNER & CO., now manufac-tensive Steam Works of East Main street, Carlisle, a large assortment of AGRICULTURAL IMPLEMENTS,

of well known, approved usefulness to farmers, amon which they would call especial attention to WII LOUGHBY'S Celebrated Patent GUM SPRING GRAIN DRILL,
which has taken over fifty First Class Premiums at
State and County Fairs. To the Farmers of Cumberland, York and Perry counties, we need not speak in
detail of the merits of this drill, as scores of them are
now in use on the best farms in those counties. Its
reputation is established as the most complete Grain
bell now manufactured in the United States. It
sows Wheat, Rye Cats, Barly and Grass, evenly and
regular, without 1 unching the seed. The gum springs
pass the drill over stumps and stones, without breaking pins or the drill. For even and regular sowin;
the Willoughly Gum Spring Drill is unequalited by
any other. We also manufacture and self the following articles, which we can recommend to Farmers as
reliable implements, of estable shed character:

Manhood: how Lost, how Restored!

Just published a new edition of Dr. Culverwell's Celebrated Essay on the radical ours (without medicine) of Spermatorrhoca, or seminal Weakness, Involuntary Seminal Logses, Impotency, Montal and Physical Incapacity, Impediments to Marriage, etc; also, Consumption. Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cents.

The celibrated author in this admirable essay clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self-abuse may be radically oured without the dangerous u-e of internate medicine or the application of the knife—pointing out a mode of cure, at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

This Locture should be in the hands of every youth, and every man in the land.

Next under seal in a pluly acceptance of any address. Manhood: how Lost, how Restored!

Colobrated Wash Blue, will take notice, that the ibels are altered to read. INDIGO BLUE. put up at Afred Wiltberger's Drug Store, No. 233, North Second Street, Philadelphia. The quality of this Blue will be the same in every The quarry of this sales will so the same in every espect!

It is warranted to color more water than twice the, same quantity of Indigo, and to go much further than any other Wash Blue in the market. It dissolves perfectly clear, and does not settle on the clothes as, most of the other makes do. One Box dissolved in, a hair plut of water, will make as good a Liquid Blue, as any that is made at one-third the cest.

As it is retailed at the same price as the Imitations and inferior articles, housekeepers will find it very much to their advantage to ask for that put up at Wiltberger's.
