break her fetters, when mankind are about to be aroused to claim natural and N E W S!! inalienable rights-when the yoke of oppression that has reached the wilderness of America, and the unnatural alliance of eclesiastical and civil power, are about to be dissolved—at such a period, when liberty-liberty of conscience -is about to awake from her slumberings, and inquire into the reason of such charges as I find exhibited here to-day in this indictment!" [Another fearful pause while the speaker alternately cast his sharp piercing eyes on the court and the prisoners, and resumed.] "If I am not deceived, according to the contents of this paper I now hold in my hand, these men are accused of preaching the gospel of the Son of God! Great God!" [Another long pause, while he again waved the indictment around his head -while a deeper impression was made on the auditory.] Resuming his speech:

"May it please your worship; there are periods in the history of man when corruption and depravity have so long debased the human character that man sinks under the weight of the oppressor's hand-becomes his servile, abject slave; he licks the hand that smites him; he bows in passive submission to the mandates of the despot; and, in this state of servility he receives his fetters of perpetual bondage. But may it please your worships, such a day has passed away From that period our fathers left the land of their nativity for settlement in these American wilds-for liberty-the civil and religious liberty of conscience to worship their Creator according to their own conceptions of Heaven's revealed will, from the moment they placed their directly opposite Irvine's Shoe Store.

LEIDICH & MILLER. Let upon the American continent, and | Sept. 16, 1864. in deeply imbedded forests sought a refuge from persecution and tyrannyfrom that moment despotism is crushed -the fetters of darkness were broken and Heaven decreed that man should be free-free to worship God according to the Bible. Were it not for this, in vain were all their sufferings and bloodshed to subjugate this New World, if we, their offspring, must still be oppressed and persecuted. But, may it please your worships, permit me to inquire once more, for what are these men about to be tried? This paper says, ' for preaching the gospel of our Savior to Adam's fallen race.'" And in tones of thunder he exclaimed-" What law have they ri olated?" While the third time in a low, NEW GOODS!! NEW GOODS! dignified manner, he lifted his eyes to heaven, and waved the indictment around his head. The court and audience were now wrought to the most intense pitch of excitement. The face of the prosecuting attorney was livid and ghastly, and he appeared unconscious that his whole frame was agitated in alarm, while the judge in a tremulous voice, put an end to the scene, now becoming excessively painful, by the authoritative declaration. "Sheriff, discharge those men!"

Bishop Simpson and the Flag. At the late session of the Pittsburg Annual Conference of the Methodist Church, Bishop Simpson, one of the most eminent and apostolic divines, and most eloqu nt orators in the country, made a speech upon the four questions:

"Shall our Government be destroyed and wept from the earth? Can we be divided into two or more Governments? Shall we have a new form of Government? Is not the Nation to rise out of its present troubles better, firmer, and more powerful?"

The effect of his discourse is describel as very remarkable. Toward the close an eve witness says: "Laving his hands on the torn and hall-

riddled colors of the Seventy-third Ohio, he spoke of the battle-fields where they had been baptized in blood, and described their beauty as some small patch of azure, filled with stars, that an angel had snatched from the heavenly canopy to set the stripes in blood. With this description began a scene that Demosthenes might have envied. All over the wast assembly handkerchiefs and hats were waved, and before the speaker sat down the GLASS, QUEEN'S, WOOD, WILLOW & RATAN whole throng arose, as if by a magic influence, and screamed, and shouted, and saluted and stamped, and clapped, and wept, and laughed in wild excitement. Colonel Moody sprung to the top of a bench, called for "The Star-Spangled Banner," which EYRE & LANDELL, was sung, or rather shouted, until the audience dispersed, as it had to disperse."

TIME. --- Generation after generation have felt as we do now, and their lives were as active as our own. The heavens will be as bright over our graves as they are about our paths. Yet a little while and all this will have happened. The throbbing heart will be stilled, and we shall be at rest. Our funeral will wend its way, and the prayers will be said; we shall be left in the darkness and silence of the tomb, and it may be but a short time we shall be spoken of, but the things of life shall creep on, and our names shall be forgotten. Days shall continue to move on, and laughter and songs will be heard in the room where we died, and the eyes that mourned for us be dry and animated with joy, and even our children will cease to think of us, and will remember to lisp our names no more.

A man applied to Dr. Jackson, a celebra ted chemist of Boston, with a box of specimens. "Can you tell me what that is sir?" "Certainly I can, sir; that is iron pyrites." "What sir?" in a voice of thunder. "Iron pyrites." "Iron pyrites! and what's that?" That's what it is," said the chemist putting a lot on a shovel over the hot coals, where it disappeared; "dross." "And what's iron pyrites worth?" "Nothing." "Nothing!

THE peculiar taint or infection which we call SCROFULA lurks in multitudes of men. either produces or is produced by an en-feebled, vitiated state of the blood, wherein

transcent vigorous action, and leaves the system to tall into disorder and decay. The scroftlons contamination is variously caused by mercurial disease, low living, disordered digestion from unbaulthy food, insures are fifth and filthy unhealthy food, impure air, fith and fithy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniqui ties of the fathers upon their children." The diseases which it originates take various names according to the organs it attacks. In the Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the ach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These all having the same origin require the same remedy, viz. purification and viceration of the blood. Purify the blood and these dangerous distempers leave you. With feelile, foul, or corrupted blood, you can not have health; with that "life of the flesh

healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla compounded from the most effectual ant dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made o the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Nevralgia, Dyspensia or Indigestion, Syphilis and Syphilitic Infections. Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayen's American ALMANAC, whi h is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use and some of the remarkable cures which it has made when all other remedies had failed to afford rehef. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience Scrotula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast invocation life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Surs iparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vial functions, and thus expels the distempers which lark within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sursaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues-have been proven by abundant trial, and there

have been proven by abgudant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages

of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
