FOULK, Esq. A. W. Rand vs. Robert Wilson and Geo. W. Wilson, trading as Wilson & Son .-Summons in debt on book account running from December 18, 1858 to January 1859, for \$313 84 with interest for 6 years. The principal cause of action was for the price of a Boynton Furnace which Mr. Rand put into the Academy at Mechanicsburg. There had been great difficulty in getting a proper heater for the building. Messrs. Wilson contracted with the owner, Mr. Solomon P. Gorgas to furnish it with a heater, but they Tailing to do so, got Mr. Rand of 124 North 6 street, Philadelphia, to supply the building with proper heaters. He put up, what was proved by Defendants themselves, a heater of the very best quality and which was high-

ly recommended. Defendants allege, however, that they had contracted with him to furnish such heaters as would heat the building properly and thoroughly; that they had represented it impossible to heat it owing to the faulty construction of the building; and that he was confident that the heater of which he was the agent, could and should heat it, and that it had not. The heater remained in the building in which it had been put up at the expense of Plaintiff .- Verdict for Defendants Penrose, Henderson and Hays for Plaintiff. Watts and Parker for Defendants.
