## Saturday Night Musings.

There is a great white counterpane of snow on the ground this Saturday night. God's charity covering a multi tude of sins! Would that human charity would thus do-would whiten over the little bannocks and ridges of life which can be removed from one place only to rise again in another. The week just passed has been a short one. Too short for many a one to settle with himself, yet he has gone home. How time flies! Has it always gone by thus rapidly? If all the Saturday nights God has ever given us were before us, what an array of crime would be seen. Yet the day comes when they will soon loom up with their debits and credits to curse or bless. Do you ever pause to think, readers? If so, pause again. If not, begin now. Draw your chair to the fire. Turn the light so it will not hurt your eyes. Pull the curtain down at the corners Listen! A footstep on the creaking snow. Some laborer going to his loved ones. Weary and heart-tired -may God warm his little home with love. Look back over the past week. It is not far. A room with six folding doors. Open all of them. Turn the room into a hall-look down its short walls and see in memory the pictures you have hung there. Another footstep! How the boot creaks as the snow is crushed beneath its weight --Listen! a lighter step. Some wife who is hastening home to greet her husband with the marketing for the morrow. Tired man. He sits and rests with little hands in his whiskers -little eyes peer ing into his-little heads on either shoul der-stars which rank him a Major Gen eral in the army of life! Hold them closer to you-kiss them fondly to night. Who but God knows who will be in shroud. coffin or grave ere another Saturday night

comes around?

Another step! The other way! Some husband with heart full of ruined hopes going to meet at the beer table. Some foolish youth swift stepping by, anxious to join the revel. Pitied husband. 'Twas not thus a few years since. Who is to blame? Let us, who know not the cares and shad. ows of the heart, not do that which God has told us not to do. Let us not condemn. He will reward and he will punish. The step dies away. Around the corner. So her hope dies away. So his heart thoughts have died out. Why will he leave the home fireside this Saturday night over all others? Home once had its charms The eye now so indifferent once lit its way to her very soul. The lips now cold except in petulency, once put their rich fullness up to revel in the caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, to form a camp at or near caster, and York, loved kiss. The tongue which now speaks but to chide, once knew no language but that of love. It was many Saturday nights ago perhaps-but it was once .-Why go to night? Is there not some little corner in the heart where the old love—the old hope—the old pleasure lingers? Must you go to night? Once you would not have left for an hour. Who you would not have left for an hour. Who has poisoned the feast? Who has bittered the spring? Talk it over this Saturday night. See who has shrouded the Pet and buried the Darling of years agone. Go not elsewhere for happiness) It is not to be found in the wine cup. The glass of poison does not contain it. The the county of Bucks. allurements of the gaming table give no happiness. contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, sweilings which suppurate and become ulcerous sores; in the stomach and bowels derangements which produce indigestion, dyspensia, and liver comn the skin, cruptive and cutaneous These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these daugerous distempers leave you. With feeble, foul, or corrupted blood, you can-

not have health; with that healthy, you cannot have scrofulous disease. Aver's Sarsaparilla s compounded from the most effectual anti dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples. Blotches and Sores Erv sipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the wool series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American

Almanac, which is furnished to the druggists for gratuitons distribution, wherein may be learned the directions for its use and some of the remarkable cures which it has made when all other remedies had failed to afford relief: Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The very investment life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is advanate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffer ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disense, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thas expels the distempers which lurk within the system or burst out on any

We know the public have been deceived by many compounds of Sensaparilla, that promise meh and did nothing; but they will neither be reived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other-which has ever been available to them.
