contamination is variously can all by more or disease, low living disordered discuss two unhealthy food, boson air, filth and relability, the depression vice and, above all, by the venereal infection. Whatever he is origin, it is hereditary in the constitution, descending "from parents to child, or unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the full research to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates tally varieus names, according to the organ, it attacks. In the lungs, Scrofula produces tubercies, and finally Consumption; in the glands, swellings which suppurate and become ulcorous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsig, and liver complaints; on the skin, emplies and cutaneous affections. These all having the same mixing affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"

healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla is compounded from the most effectual antites that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following at the complex control of the complex control of the complex control of the control the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whol series of complaints that arise from impurit of the blood. Minute reportcases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution wherein may be learned the directions for its use and some of

the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reade may have access to some one who can speak to num of its benefits from personal experience Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYLE'S SARSAPARILLA, although it is compo od bf ingredients, some of which exceed the best of Surs sparilla in alterative power. By ing and dailier of these disorders. Purge on i' corn tions that rot and fester in the par, ou the causes of disease, and is health will follow. By its peculiar
