PIANO-FORTES.

DRIGGS' NEW PATENT.

▲ RE the only Instruments con 'ructed A on a truly scientific principle. They have gie.t strength, and wil remain longer in oune than any o her Piane. The construction is simple and natural all the extraneous lumber in the body of the instrument is dispensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong Iron trame, which is separated and entirely independ ent of he case, thereby dispensing with the old harp form of stringing, by substituting straight bridge, preserving at the same time the Over Strung Bass, of which Mr. Driggs is the inventor. By these improvements we gain much more vibratory power, at th same time preserving all its purity and richness o

They have recoved the highest testimontals from the Press, and all the principal artists in the country Harry Sanderson.

L. M. Gottschalk Max Maretzek, S. Thalberg, Theodore Eistield. Wm Mason, Herman Wo'lenhaupt, Francis H. Brown, M. Strackosch. Wm. Henry Fry, Mr. SEGES 4UND THALBERO, the great pisni

says:-1 have examined your new Piane-forces, and I cordially approve of its system of construction. Its principle, by which great increase of vibratory power is obtained, bein, very simple and perfectly ph losoph cal. The tone is grand and noble; it has good capacity for sustaining the sound or singing, and its volume of tone or power I have never heard excelled in depth purry and sympathetic sweetness.

Wm. HENRY FLY, late musical critic of the N. V Piano-Fortes. They merit all the praise given to them by Messrs Thalberg, Gottschalk, Strackosch, Mason and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excellence which enables the planbts to "sing" on the strument, your Planos ever deserve the highest rank Your invention, in my opinion, is destined to wor a radical change in the manufacture or Prenos through-

From the N. Y. Herabl, ! ept 5 .- Upon a careful ex amination of Prigg's Fiant-Forte, we find the results obtained are a very fine singing to magnetic urity and brilliancy throughout the entire instrument, not often found in Planes cor structed upon the old plan. The N. Y. Times, July 12 says .- We have now an instrument without an equal. It can sing with a smooth delicacy, per e tly unattainable on any other instrument: an ordinary player of tains with no exer tion, t e fullness of a brand Piano-Forte, and they must speedily supersede the old styles.

ing from his in prevenents, as exhibited in the instruments under examination, in tolut of richnes, depth and bribliney, equa what of the best Grand Piano Fortes, and exects them in pure, musical intonation and actual tone power thus approximating closer to what I consider perfection in the instrument than has yet been achieved by any other system of

unhealthy food, my use at , fifth and fifthy habits, the depressing of estand shows all, the veneral infection. Whatever be its original it is heredured in the constitution descender "from parents to children unto tag third and fourth generation; "indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs in attacks. In the lungs, Scrofula produces subercies, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints, on the skin, eruptive and cutaneous

affections. These all having the same origin require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease. Ayer's Sarsaparillais compounded from the most effectual anti-dotes that medical science has discovered for

this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Lebility, Dropsy, Neuralgia, Dyspensia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aylu's American Almana, which is furnished to the druggists or gratuitous distribution, wherein may learned the directions for its use, and some of

the remarkable cures which it has made when all other remedies had failed to afford rehef Those cases are purposely taken from all secmay have access to some one who can speak to him of its benefits from personal experience. leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting ? remedy which is ad quate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is comts and you may protect yourself from the sufferand danger of these disorders. Purge out foul corruptions that rot and fester in the

b'ond; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out on any We know the public have been deceived by many compounds of Sarsapavilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is for more effectual than any other which has

ever been available to them.

AYER'S CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may relied on to do all it has ever done.
