orights, in which opinion we fully cide.''

All the want of employment. There was no diversification of labor. The basis for reduced to poverty, were compelled to fly by thousands and tens of thousands. More o funds to meet them. went to London, alone than remained even in Dublin. They flocked to Birmingham, Manchester, Liverpool and Glasgow; filling the garrets and cellors with a wretched population, auxious to sell their labor and perisbing for want of food. Hundreds of thousands of them came to our shores, in New York, and neighboring parsonage, quest of employment that was denied them at home.

The evil here does not consist in a redunportion of the church silver communion dant population or an unwilling soil. As service. has been seen, there is more land than labor--The schools of colored children in

ers can make productive. Our author ex-Louisiana have all been suspended for want plains the whole difficulty as consisting in the want of employment-of a diversified March the system of contracts prescribed by industry. The population is not near as agricultural laborers will begin to yield a dense as in the most prosperous English or Belgie districts, nay, not as dense as in many in the country district may then be re-estabrevenue, and it is expected that the schools of the districts of this country where expatri- lished. ated Irishmen manage to live in comfort and respectability.

The simple fact is, that as British policy Freehold to Butler, under the auspices of eocs not allow diversified employments readily go to Ireland, Irishmen are compelled the Pennsylvania Central Railroad Company. It is said the road will be completed to starve or go to those lands where many forms of employments do exist. and in running order within two years.

There never was a land blessed with so rich a soil as to escape approximate depopextraordinary amount of labor, principally year, whilst large quantities of Somerset during the months of June, July and August ulation if its people were confined to agriculture. Wipo out the manufacturing es of 1865. From June to October of lust year, tablishments of Pennsylvania; New Jersey, two hundred and seventy millions of money New York and New England, and Indiana, was paid to 800,000 officers and men. Illinois, Wisconsin, and the grain and meat Illinois, Wisconsin, and the grain and meat producing States beyond, would necessarily lose half their populations. It would be -Plates for a new issue of fractional cur producing States beyond, would necessarily rency are now being prepared by the Printbetter for the people of those States to build The new issue will be of the denominations better for the people of those States to build up manufacturing establishments, on a large scale, within their own borders; for that course would accelerate their growth in population and wealth. The general condition of trade have raised the price of t oir papers to four is called healthy. cents. They state that the advance in the

cents. They state that the advance in the cost of paper, which has been from sixty to seventy per cent. since the reduction last summer, fully justifies them in this course. Several papers in different sections of the country have also lately advanced their rates, in consequence of the very high price of printing. paper. The Philadelphia Press -The State Preasurer of Virginia reports

that he has on deposit \$875,000 in confeder-"The newspapers throughout the country. "The newspapers throughout the country of are complaining of the excessively high rates charged for printing paper. What before the war could be bought for nine to ten cents per pound, and was thought dear at that price, now commands nearly t ree times that amount. During the war this might price, now commands nearly t ree times that amount. During the war this might that amount. During the war this might be borne as a necessary evil, consequent upon the appreciation of gold and the searcity of suitable material for paper stock, but with the cessation of hostilities and the decline in gold, it is difficult to understand the reason, for the continued high price of paper. The for the continued high price of paper. In-stead of diminishing, it appears to increase. An article of such universal use ought to be produced at the lowest possible cost. The paper makers, it would seem, desire cost. The trol the price of this indispensable material, and being comparatively few in number, the charge of combination appears to have some foundation. Meanwhile the journals are in-creasing the price of subconstration. creasing the price of subscription."
