READ WHAT DR. SCHENCK IS DOING. DR. J. H. SCHENCK.

DEAR SIR:—I feel it a duty I owe to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint, to let them know what great benefits I have received from your Pulmonic Syrup and Seawed Tonic in so short a time. By the Syrup and Seaweed Tonic in so short a time. By the blessing of God it has cured me thus far Dr. Schene's, I will now make my statement to you, as follows:—About eighteen months ago I was attacked with a severe cough, and It settled on my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise m' skin; my appetite all gone, and unable to digest what I did eat; bowels swoolen, irregular and costive. I was very low spirited, and had such violent spells of coughing lwen I laid down at night and when I ariosa in the morning that they would last one or two hours.

I said they would last one or two hours. I would when the last of the work was well and the last of the work of the last of February, 1802, to Juhe, 1803, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that tracked use very much. I at this time raised a large quantity of thick, yelk w, offensive matter; sometimes with blood, and it was generally accompanied by natural secure of coughings badly? I would have sharp, shooting pains in uny ieft side and beart, night sweets, and soreness all through my whole chest; had much that ward fiver, pain in my hack and under my shooter blades and in the small of my back, and at times so sewer that it would throw me lote spans. Now my physician for aid. We had four of the best physicians of New York, and I was so reduced that I could not was in the water part of Missouri. In June last the waster part of Missouri. my husband to go and see him for me. At his time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1863, my husband called on Dr. Schonck, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me. which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His reply was; "I cannot tell, both lungs are diseased, and the bronchiat tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night, sweats, and diarrhea had prostrated me so that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough! Pulmonic Syrup hrough my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seawed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me strength, so that on Sunday after I sat up in bed and ate hearty for a slek woman; but the, next week I lost all hope and wished my husband hot to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the bonds of it. For after eight days I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining strength of bedy, my cough is going away, and all my pains are gone; no soreness of the body. my bowels are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could

PIANO-FORTES.

DRIGGS' NEW PATENT.

RE the only Instruments constructed on a truly scientific principle. They have great ngth, and will remain longer in Tune than any other Plano. The construction is simple and natural all the extraneous lumber in the body of the instru two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of stringing, by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Drives is the inventor. By these improve ments we gain much more vibratory power, at the same time preserving all its purity and richness of

They have received the highest testimonials from the ress, and all the principal artists in the country,

Harry Sanderson S. Thalberg, Wm. Mason, Theodore Eisfield Herman Wollenhaupt, A. Barili, Francis H. Brown. Wm. Henry Fry, Chas, Fradel.

Mr. SEGESMUND THALBERG, the great planist ays :- I have examined your new Plane-fortes, and I ordially approve of its system of construction. Its orinciple, by which great increase of vibratory power is btained, being very simple and perfectly philosophi al. The tone is grand and noble; it has great capac ty for sustaining the sound or singing, and its vollepth, purity, and sympathetic sweetness. Wm. HENRY FRY, late musical critic of the N. Y Friking says:-I have examined your newly invented iano-Fortes. They merit all the praise given to then by Messrs Thalberg, Gottschalk, Strackosch, Masoand others. As regards structure, they are original and philosophical; in purity, volume, and continuity

of tone; in vocal versimilitude, that crowning excel-tence which enables the planists to "sing" on the in strument, your Pianos ever deserve the highest rank Your invention, in my opinion, is destined to work radical change in the manufacture of Pianos through ont the world. From the N. Y. Herald, Echt. 5.—Upon a careful examination of Drigg's Piano-Forts, we find the sounds obtained are a very fine singing tone, great purity and illiancy lhroughout the entire instrument, not often ound in Pianos constructed upon the old plan. The N. Y. Times, July 12, says :- We have now a instrument without an equal. It can sing with a

mooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exer tion, the fullness of a Grand Piano-Forte, and they must speedily supersede the old styles. GENTLEMEN:-Having thoroughly examined and tested the Piano-Fortes invented and patented by Mr B. Driggs, I am of the opinion that the tone resul from his improvements, as exhibited in the in naments under examination, in point of richness pth and brilliancy, equals that of the best Grand ano Fortes, and excels them in pure, musical inton ation and actual tone, power thus approximating

closer to what I consider perfection in the instrument than has yet been achieved by any other system Yours respectfully, L. M. GOTTSCHALK. WM. HALL & SON.

Gentlemen:—I have recently 'eeu laboring under the distressing effects of indigestion, accompanied by aprostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Heofiand's German Bitters were recommended by persons who had tried them, and whose favorable mention of these bitters induced me to try them. I must confess that I had an aversion to Patent Medicines from the "thousand and one" quack "Bitters," whose only aims seems to be to paim off sweetened and drugged liquor upon the community in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a modelral preparation I took it with happy effect. Its action, not only upon the stemach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great great and permanent benefit from the use of a few bottles.

THE undersigned has just received, W. D. SEIGFRIED.

From A. M. Spangler, Editor of the Culturist, No. North Sixth Street, Philadelphia, July 15, 1805.

Some eighteen months since I was a sovere sufferer from Dyspepsia. I was not only unable to take plain food without suffering great distress, but had become so debilitated as to be almost unfitted for active business of any kind.

After trying a variety of so-called remedier, all of which preved worthless. I was induced, at the suggestion of a medical friend, to give Hoodand's German Bilters a trial. I accordingly purchased six bottles, which were taken in accordance with your directions. The regult was complete removal of all distressing symptome, after eating or drinking, and a full restoration of strength, so that I now eat all ordinary kinds of food with impunity, and am able to attend to all the actives duties of a large and arduous businers as well as at any period of my life, the good effects of the Bitters were manifested before I had taken the first bottle. bottles were maintessed bettler. In an attack the his bottle.

I have also used it in my family with the happlest results, and take great pleasure in adding my testinony to that of the many others who have been benefitted by them. I find great benefit from the use of a bottle in the spring and fall. They not only create a vigorous appelite, but give a health tone to the stomach, by strengthening its digestive powers.

If the above testimony will be the means of induing any who suffer from dyspepsiat to give your bitters a trial (when it, I feel confident, will give them relief,) it is at your service.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them are a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

From the many respectable recommendations given given to Dr. Hoofland's German Bitters, I was induced to give them. a trial. After using several bottles I found them to be a good remedy for deblity, and a most excellent tonic for the stomach.
