

CARLISLE, PA. FRIDAY, MARCH 16, 1866.

FOR GOVERNOR, Gen. JOHN W. GEARY, OF BUMBERLAND COUNTY.

The Volunteer is extremely concerned on account of what is presumed to be a more trouble for the Herald. We appreciate the kindness of our neighbor in thus noticing us in our affliction and would be more grateful if it did not resort to unfairness and perversion in order to convince its readers that our course was as notoriously incorrect as it is.

Here are a few extracts from the last two numbers of the Herald:

There is no probability of Stanton, Speed or Johnson being re-elected. We suppose not. We have no doubt that they would not be re-elected. The President has not been re-elected.

As the dates of the articles indicate, one was written after the veto message, one was delivered and with reference to it the other was written after the veto message.

Our position concerning the Freedman's Bill is simply this. We have no disposition to oppose the President for vetoing it. If he vetoed it he could not be trusted to carry out the details of the bill without violating his sense of duty to the Constitution and the Country.

He sees the canal, vessel or whale in the little cloud no larger than a man's hand which is rising upon the horizon, just as the fifth fable of his Prince Hamlet may dictate.

EDGAR COWAN U. S. Senator from Pennsylvania has achieved a distinction which few Senators have attained since the commencement of our Government. In 1860, he was chosen to a position which placed him before the Country as one of the National leaders of our party.

Senators Sherman and Johnson were interviewed by more than an hour's duration to-day, with the President and found him in a far more pleasant mood than hitherto. The Senator assured him there was no justifiable cause for abandonment of the principles upon which the public party carried the Presidential election.

General Geary's Early Career.

General J. W. GEARY, the Union candidate for Governor, is now only forty-eight years of age. He was born in Westmoreland county, in this State. Losing his father in early life, he became the only stay of his mother, and supported her by teaching a village school.

There is no probability of Stanton, Speed or Johnson being re-elected. We suppose not. We have no doubt that they would not be re-elected.
