Valuable Town Property at Private I OT containing 75 feet front on Louther street above Pitt, by 240 feet in depth to Dickinson Alley. The buildings are three good DWELLING HOUSES, Two of which are on Louther St. and one on Dickinson Alley. For terms &c. Apply to JACOB SENER. CLOSING OUT SALE NEUFCHATEL WATCH CO. OWING to the failure and sudden close of the works and business of the NEUFCHATEL WATCH CO., a large number of Fine Watches, manufactured especially for the United States, being heavy, first class time-keepers, intended to stand hard usage and sudden changes of temperature, are left in our hands for immediate sale. As agents of the Company, we are obliged to dispose of this Stock for Cash, in the shortest possible time. We have, therefore, decided on the plan annexed, as the one that will be productive of the desired result. This plan gives every one an opportunity of obtaining first-class time-keepers at a price that all can command. As every Certificate represents a Watch, there are no blanks, and every one who invests in this sale MUST get a Watch at half the retail price at least; and, if at all fortunate, one to wear with pride through life.

Remittances may be made at our risk in Registered Letters or by Express, or Post-Office Orders and Dratts payable to our order, and we guarantee a safe return. This INSURES safe delivery and sure return to every patron. patron.

We warrant every Watch as represented, and satisfaction is guaranteed in every instance. Knowing the

American House,

North Hanover St., Carlisle, Pa. Patent Metallic Sole. THE subscriber respectfully inform his friends and the public, that he has taken the above well known house, formerly kept by Mr. Shriner, and intends sparing no exertions to accommodate all who may be pleased to give him a call. The house has been refitted and is in excellent order. He also introduced A NEW INVENTION. WETTING THE FEET is the most prolific cause of diserbe and death known to humanity. It is almost sure to bring on a cold; and colds, neglected, and often when not neglected, lead to fevers or to coughs and latal consumptions. It is in recognition of this fruth that the inventive talent of the country hat for years been devising some method, or attempted to devise it, for keeping the feet dry, and yet that should not give inconvenience to the wearer. Rubber shoes, in one form or another, have hitherto been our reliance; but it is well known, as among their many orlis, that while they keep the feet dry from external moisture, they sweat them over much, and by thus inducing an undue tenderness increase a susceptibility to colds rather than otherwise. They are also cumbersome to the feet, and withal are very expensive. The demand is for something that shall make the ordinary Boot and Shee impervious to water, without affecting their elegance or durability, and, it possible, without adding sensibly te the cost of their manufacture. These, it will be conceded, are most importan. features, and we conscientiously affirm that they are absolutely attained in the inventin herewith presented to the public. The invention consists in inserting between the inner and outer sole, when the loot is making, a thin MELLALE PLATE, exceedingly ductile, combining, flexibitity with toughness, tygy light, and every way apapted to the end desired Applie the additional expense is merely nominal. It furnishes a perfect barrier against the admission of wet or dampness, though the feet may Anderson's Spring Bed Bottom to his Bodstoads, so that his guests will have a good night's rest. His charges will be moderate.
Attached to the house is a large yard with excellent and convenient stabling. Physician & Accouchour. R. LOUIS P. GRIFFIN, (formerly of New York.) having permanently located at Carlisle, solicits the liberal Patronage of the citizens of this place, and surroundings. Particular attention paid to diseases of "Women and Children." Office at Mausion House, Room 32.

April 6, 1866—6m. Adams Express Company. FILE following Bundles, Packages. Boxes, and Trunks, remain in the office and it redeemed within thirty days from date will be nerely nominal. It furnishes a perfect barrier agains he admission of wet or dampness, though the feet may e exposed ever so long upon wet pavements or dam ground.

The ladies and children the METALLIC Soles will be of mediculable value, as from their habits of life and deleacy of dress, they are particularly exposed to the long train of life that attend upon an inadequate protection. train of fils that attend upon an inaccepancy power to the feet.

These Soles have already been tried by the best of all tests actual vsc, and the testimonials to their merits, freely proffered, indicate that they must be specially and universally adopted by the public. The Patent Metallic Soled Boots and Shoes are being in speedify and universally adopted by the point. The Patent Metallic Sole-I Boots and Shoes are being introduced into the leding Boot and Shoes Stores throughout the United States, and will supplant all forms of overshoes, except possibly for deep mud or snow, as they become known. Be sure to get them and take no other. If your shoemaker does not happen to have them, he can procure them without difficulty. If he will not, then send yourself to the inventor one dollar and thirty cents, and obtain six pair, assorted sizes, with right to use, which will be promptly forwarded by mail or express pre paid, and which can be made up by any shoemaker in the country. Agencies will be established in every city and village, and supplied with Soles and propictory stamps, at schedule prices, and liberal commission allowed on sales. Also General Agencies for States appointed on application, with proper testimonials to the inventor.

SAMUEL J. SEELY, General Depot, corner City Hall Place and Read street, New York. TESTIMONIALS. The undersigned have for the past six months worn Boots and Shoes possessing Mr. Seely's Metallic Sole, and find them an effectual preventive against dampness, and the colds so often taken from damp feel. Most gladly do we testify to the perfect efficiency of their service. The Metallic Sole is not only a grand contribution to the cause of general health, but a positive lacency, obviating all necessity of India Rubber shoes, except in muddy weather. All ordinary dampness, and even water upon pavements, is completely foiled of its power of harm by this most simple and shous, except in muddy weather. All erdinary damp-ness, and even water upon patements, is completely folled of its power of harm by this most simple and useful invention. No one wh, has one used them will ever be without them again, as they increase the cost of los ts and shoes by a sum which is searredy worth namica, and in-ure, positively, dry feet, which is rets-oned among the first conditions of health and comfort We heartily resummend the "Metallic Soie" to all the sawsible. GREAT REDUCTION IN PRICES ${\bf Green field\ \&\ Sheafer}$ are now opening a large supply of Dry Goods for the J. CLEMENT FRENCH, Pastor Central Cong. Church, Brooklyn MARY A. FRENCH. SPRING TRADE, just received from the Eastern Cities, comprising NEW YORK Dec. 1803 NEW YORK Dec., 1866.

Dear Sir—In reply to your inquiries regarding your patent Metallic Sole, I take great pleasure in stating that I hid them put in a pair of fine call skin books, which I were the whole of last winter in the wet streets of Albany. I have had them hall soled since, and am wearing; our Metallic Soles now, with full intention never to be without them. I have not had a wet or damp foot during the whole time I have worn them. I pronounce them the best insole yet made. I am satisfied that no person having once worn them will do without them. Wishing you the success you deserve for so valuable an invention for the preservation of health. Jeffer Erson, Contractor, New York.

our readers, we commend the article to their careful perusal:—
A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc etc., are each chaining to make the best instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much less capable of judging of its merits, or demorits, than of most other instruments. If there is really an essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten thom. We cheerfully concede the space for this article knowing that there is hardly a family, er church, or school in all the land, but is more or less interested in this topic. We are also aware of its being a great misfortune, a real calamity, to any of them to purchase an interior or worthless Organ, ruinous to good pli-ying, and often a source of much annoyance and vexation. We know this article to canante from a candid and intelligent source, and thus we give it to our readers.

The avestion is often asked, what are "reed organs" STOP AND LOOK IN A T W. Fridley's Tinner Shop, East Louther St., Sign of the Red CoTee Pot wher n see the Finest, Cheapest, and Best COOKING STOVES Ever offered in Carlisle he has on hand the latest im-proved Paterns, such as the celebrated Barley Sheaf Cook,

ing a great minerior or worthless Organ, ruinous to good pli-ying, and often a source of much annoyand and vexation. We know this article to canante from a candid and intelligent source, and thus we give it to our readers.

The quostion is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old melodeen in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same gen-ral internal arrangement. With the bellow sturned on eige to gain room, they have simply put on a more pretentious exterior and a more high sounding mane. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the fulter or plpe organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air passages, instead of a wind chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and mere easily managel swell by other methods. The truth is, any organ, so called, or melodeon which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dross it up as you may. And when organists and true musicians become aware of the fact that they are an obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, is also a very FRUIT CANS and JARS. Two of the best over offered to the public. Fridie and Cornman's Self-Sealing and Self Testing Cans and Jars also, Fisher's Patent, the above Cans and Jars can not be surpassed in any market.

Thankful for the Liberal Patronage heretofore ex lesire to please all to merit a continuance of the sam-March 23, 1806—1y.

The immense popularity of these Grgans, and their superior Musical Powers, is and bringing them before the public, as the Instrument so lone desired in A-MERICAN HOMES. And although the cost price is but a trille over the Melodeon, yet the musical advantages, beauty of tone and quickness of touch and action are so far superior, that they are fast superceding the Melodeon and the call is now almost exclusively for the J. F. &E. B. ORNE, 904 CHESTNUT STREET PHIADELPHIA,

AMERICAN ORGANS It is adapted to any Music from the quickest and most lively, to the heavy tone of the Church Organ. And almost universally they are preferred to the Plane, by persons who have them, yet costing less than half, and only taking a small amount of room.

Send for descriptive circulars giving full particulars and prices. GREAT SIRING STOCK Bond for descriptive circulars giving and prices.

March 9, 1866—3m. CATARRH CURED FOR ONE DOLLAR.

CURED FOR ONE DOLLAR.

PEAD!—For one dollar per mail, I will send free to any address a recipe and medicine that I will guarantee to cure the worst cases of Catarrh in the head or bronchial tubes in a few weeks. It has saved my life, and made me a well man, from Catarrh and a severe and dangerous broachial trouble I had suffered with for years. I fried the best physicians, and all the advertised medicines of the der, but found no relief till I obtained this! I would give one hundred dollars for this recipe and the medicine, if I now had the Catarrh and couldnot obtain it for less. I believe, if instructions are followed, it will cure any case whatever, that has not already reached the lungs and become a settled consumption. Cure it while you can.

Address, No. 1621 Fulton St., New York.

SORL-EBRATED ESSAY on the radical cutwithout medicine) of Spermatournea, or somical Weak-ness Involuntary Seminal Losses, Importator, Mental and Physical Incapacity, Impediments to Marriage, otc-also, Consumption, Epilepsy, and Firs, Induced by solf

and Physical Ancapacity, imposiments to Marriage, ofc. also, Consumption, Epilersy, and Firs, induced by self-indulgence or soxual extravagance.

ADP Price, in a sessed envelope, only dieents.
The colobrated author in this admirable essay clearly demonstrates, from a thirty year's successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal modicine or the application of the knife—pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privaciety, and radically.
