On the 27th of January, 1863, my husband called on Dr. Schenck, 32 Bond street, Now York, and stated to Jun Schenck, 32 Bond street, Now York, and stated to Jun and case, with a request for him to call and, see me which he did, and examined me with the respirometr. When he was about to go I asked him if he could cure me? His reply was; "I cannot tell, both lungs are discased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhae cauld be stopped. He said unorder to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, and then, with astriagents, he hoped to check it, which he did, but the constant cough ug, night sweats, and diarrhea had prostrated me so that he was afraid my vital powers were too much prostrated ever to raily, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seawed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me strength, so that on Sunday after I sat up in bed and atch hearty for a sick woman; but the next week I lost all hope and which day lundard not to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made them foel somewhet restless, and to persevere; and he husbed on my taking it; and now I feel the benefit of it. For atter eight cays I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining atrength of body, my cough is geing away, and ail my pains are gone; no serences of the body my bowels are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and rest well

We, the undersigned, residents of New York, are nequanted with Mis. Farlow, and know her statement o be true. We also know that she used Dr. Schenck; "ulmone Sprup and Seaweed Tonic, and have reason of believe that to to is medicine she owes her preservation from a premature grave.

PIANO-FORTES.

DRIGGS' NEW PATENT

RE the only Instruments constructed on a truly scientific principle. They have great or strength, and will remain longer in June than any other Piano The construction is simple and natural all the extransous lumber in the body of the instrunent is dispensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of stringing, by substituting straight bridges preserving at the same time the Over Strung Bass, cf which Mr. Driggs is the inventor. By these improvements we gain much more vibratory power, at the ame time preserving all its purity and richness o

They have received the highest testimonials from the Press, and all the principal artists in the country, mong which are:

Harry Sanderson, Max Maretzek, S. Thalberg, Wm. Mason, Theodored Eisfield. Herman Wollenhaupt, A. Barill. Francis II. Brown, M. Strackosch, Wm. Houry Fry, Chas. Fradel. Mr. SEGESMUND THALBERG, the great planist, iys :—I have examined your new Piano-fortes, and I ordially approve of its system of construction. Its principle, by which great increase of vibratory power is obtained, being very simple and perfectly philosophical. The tone is grand and noble; it has great capacity for sustaining the sound or sluging, and its vol-ume of tone or power I have never heard excelled in lepth, purity, and sympathetic sweetness

Wm. HENRY FRY, late musical critic of the N. Y. ribune says:—I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Messrs Thalberg, Gottschalk, Strackosch, Mason and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excel. lence which enables the pinnists to "sing" on the ir strument, your Planes ever deserve the highest rank Your invention, in my opinion, is destined to work a radical change in the manufacture of Pianos through-

ont the world. From the N.Y. Herald, Ecpt. 5.—Upon a careful examination of Drigg's Plano-Forte, we find the results obtained are a very fine singing tone, great purity and brilliancy lhroughout the entire instrument, not often ound in Pianos constructed upon the old plan. The N. Y. Times, July. 12, says:-We have now ar instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exerion, the fullness of a Grand Piano-Forte, and they

must speedily supersede the old styles.

Gentlemen:—Having theroughly examined and tested the Plano-Fortes invented and patented by Mr. B. Driggs, I am of the opinion that the tone result g from his improvements, as exhibited in the in truments under examination, in point of richness epth and brilliancy, equals that of the best Grand. iano Fortes, and excels them in pure, musical intonation and actual tone, power thus approximating closer to what I consider perfection in the instrument than has yet been achieved by any other system of manufacture. Yours respectfully,

I take great pleasure in thus publicly procisiming this fact, and calling the attention of those afflicted with the disrass for which they are recommended, to these bitters, knowing from experience that my recommendation will be sustained. I do this more cheeriully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

It was left for this day and hour to realize the dream.

Very respectfully yours, No. 254 Shackamaxon Street,

From Rev. J. Newton Brown, D. D., editor of the Encyclopedia of Religious Knowledge and Christian. Chronicle Philadelphia.

Altaough not disposed to favor or recommend fatent Medicines in general, through distrust of their ingredients and effects, I yet knew of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple praparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to Hoofand's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indobted to my friend, Robert Shownaker, Esq., for the removal of this prejudice by proper (ests and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these litters at the beginning of the present year, was followed. By ovident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months be fore, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

I have derived decided benefit from the use of Hoof land's German Bitters, and feel it my privilege to rec ommend them as a most valuable tonic, to all who are southering from general deblifty or from diseases arising from derangement of the liver. Yours, truly E. D. FENDALL. From Rev. D. Morrige, Pastor of the Passyunk Bap dist Church, Phila. From the many respectable recommendations given given to Dr. Hoofland's Gorman Bitters, I was induced to give them a trial. After using soveral bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach.
