MARSHALL'S Catarrh Snuff, is a sure cure for that Jan. 12, 1866—1y. !! A Grand Epoch in Medicine!! R. MAGGIEL, is the founder of a now modical system. The quantitarians whose vast internal doses enfeable the stomach and paralyze the bowels, and with whose external remedies ulcerated and cruptive surfaces are deluged in vain, must give place and precedence to the man who restores health and appetite with from one to three harmless pills, and cures the most virulent and scorbutic disorders with one or two boxes of his salve. Maggiel's Pills and Salve have ushered in a new medical era. No more nauscating avalancies of drastic pills need be poured down sick people's threats. One of Maggiel's Pills rectifies the disordered condition of the stomach and bowels, and makes health return where it has vanished. In fact Maggiel's Billous, Dyspeptic and Diarrhaco Pills cure where all others fail. While for Burnas Seadds. Chilblains, Cuts, and all abrasions of the skin, Ma giel's Salve is infailible. AMERICAN ORGANS. (From "Godey's Ladies' Book" February, 1866.)

REED ORGANS, &c. THE following remarks and suggestions relative to this immensely popular instrument will doubtless interest and profit very many of our readers, we commend the article to their careful perusal:—

our readors, we commoud the article to their careful perusal:—

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc etc., are cach claiming to make the best instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much, loss capable of judging of its marks. or demorits, than of most other instruments. If there is really an ossential difference in them, if there are some excelent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article knowing that there is hardly a family, or church, or school in all the land, but is more or less interested, in this topic: We are also aware of its being a great misfortune, a real calculity, to any of them to purchage an inferior or worthless Organ, ruinous to good playing, and often a source of much annoyance and sexation. We know this article to enanute from a cardid and intelligent source, and thus we give it to a candid and intelligent source, and thus we give it to

to purchase any interior or worthloss organ, ruinous to good pluying, and often a source of much annoyance and wexation. We know this article to enanate from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old melodeen in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the flute or pipe organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the cass where the reeds open direct into the bellows or air passages, instead of a wind chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds one accellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other mutchos. The truth is, any organ, so called, or melodeon which has the vitual acting process of the perferment of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Oentlemou:—I have recently leen laboring under the distressing effects of indigestion, accompanied by a prostration of the norvous system. These Wafers have been before the public for nearly
thirty years, and the immense sale attained, not only
in america but in foreign countries, fully attest their
intrinsic worth. The medical properties are superior

each box is nearly double that of the many worthless
imitations advertised. them, and whose favorable mention of these bitters induced me to try thom. I must confoss that I had an aversion to Patont Medicines from the "thousand and one" quack "Bitters," whose only aims seems to be to paim off sweetened and drugged liquor upon the community in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation I took it with happy effect. Its action, not only upon the stemach, but upon the nervous system, was prompt and graifying. I feel that I have derived great and permanent hence if from the use of a few bottles.
