SEELY'S' Patent Metallic Sole.

WETTING THE FEET is the most bindific cause of disease and death known to humanity. It is almost sure to bring on a cold; and colds, not bested, and offen when not neglected, lead towers or to coughs and tatal consumptions. It is in receptifion of this ruth the the inventive talent of the country ha for years be note is fing some method, or attempted to device it, for exping the test dry, and yet that should not give inconvenience to the warer. Rubber shoes, in one form or another have hitherto been our reference, but it is well known as among their many evils, that while they keep the feet dry from external moisture, her swear to en over much; and by thus inducing an undue tenderness mecase a susceptibility to colds rather than, otherwise. They expensive. The demand is for conething that shall susceptibility to colds rather that, otherwise "hey are also cumbersome to the leet, and withal are very expensive. The demand is for comething that shall make the ordinary loost and shoc impervious to water, without adding sensitify to the cost of their minulacture. These it will be conceed a are most important, features, and we consecutiously affirm that they are also dutely attained in the invention herewich nees utanto the middle.

TESTIMONIALS.

The undersigned have for the past six months worm boots and shoes possessing Mr. seedy's Mr. Altie Sons, and find them an effectual preventive against dampiness, and the colds so often taken from large efficiency of their service. The betailie Sole is not only a grand contribution to the cause of general health, but a positive laxary obviating all necessity of India Rubber shoes, except in muddy weather. All ordinary dampnoss, and even water upon pavements, is completely folice of its power of harm by this most simple and useful invention. Not nearly his most simple and useful invention. Not nearly my this most simple and useful invention, when we see see each of the will every be without them again, as they mercase the cost of boats and shows by a sum with its searchety worth naming, and his mercase that to differ so the early and complete the continuous of the first to differ so the early and complete. We heartly recommend the "Metallic Sole" to all the sonsible.

DR. J. H. SCHENOR.

Deak Sin:—I feel it a duty I owo to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint, to let them know what great benefits I have received from your Pulmonic Syrup and Seaweed Tonie in so short a time. By the bleesing of God it has cured me thus far.

Dr. Echènes, I will now make my statement to you, as follows:—About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my oyes were very yellow; likewise m; skin; iny appotite all gone, and unable to digest what I did eat; bowels swoolen, irregular and "costive. I was very low spirited, and had such violent spells of coughing when I kid down at night and when I arose in the morning that they would has core of speals of cougaing whon Listid down at night and when Laros in the morning that they would last one or, two hours.

I then would be nearly exhausted, and was entirely unable to lie on my lott side. I cannot describe my wretched suffering as I would wish to do. Every or or gan in my body was diseased or duranged. Such was my situation at this time, and I was confined to my bod from the last of February, 1862, to June, 1863, not able to sit up. I had the best of medical attendance the whole of the time. My cough was every bad that it racked me very much. I at this time raised a large quantity of thick, yell w, offonsive matter, sometimes with blood, and it was generally accompanied by nausea and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting pains in my bert side and heart, night sweats, and soreness all through my whole chest; hadmuch in ward faver, pain in my back and at times so severe that it would throw me into spasms. Now my physician gave me up to die Others I had, and the best of them, but they could do nothing nor me, and at that time I was nothing but skin andbones I then was in the western part of Missouri. In June last we let there for the East, and if any and the last was nothing but skin andbones I then was in the western part of Missouri. In June last we let there for the East, and in August last we came to sew York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time the sait water breeze made me feel much better, for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, and doctors of all kinds, but of no avail. They said I was past cure, and that my lungs vere too far apone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In Nevember last I grew worse, and the consumption and liver complaint—but of no avail.

In January, 1863, I was brought down again

tried all and everything that I could grasp at like a ding person for my diseases—consumption and liver complaint—but of no as all.

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband staged at my side, and other filonds, and they all give me ap to die. At this time every one who saw me did not think I would ever leave my bed at living womian. The first night I was attacked with spasms, and was deranged most of the time. A friend, dir. Harris, came to a me the last of the week, and brought the sunday Mercury. In it was an account of a great cure purt inted by Dr. Schenek. She read it to me, and it was so much like my disease that I asked my husband to go and soo him for me. At this time I had given up all hopes of ever getting well agair, and made my peace win God, to be ready whenever he called for me.

On the 27th of January, 1803, my husband called on Dr. Schenek, 32 Bond street, New York, and stated to him my ness, with a request for him to call and see me which he did, and a vanished me with the respired once tr. When he was about to go I asked him if he could vurs me? His reply was; "I canuot tell, both lungs are diseased, and the bronchist lubes are affected on both sides." And yet he seemed to think three were tungs enough let to effect a cure of the diarrhee could be stopped. He said in order to do this, he would have to give me Mandacke Pills in simil doses at first, to carry off the morbid matter, and then, with astringents, he hoped to cheek it, which he did, but the constructed in so that he was affaid my vital powers were too much prostrated ever to raily, and yet he seemed to thick if I could live to get enough Pul. noise Syrug through my system to cause expectoration there were tungs enough let to effect a cure of the diarrhee and to thick if I could live to get enough Pul. noise Syrug through my system to cause expectoration there were tungs enough let to me to recover. He wished mot to type one any more medical mandal points and the pro

wished my heasend not to give me any more medicine. But the dector had warred him; it his, and
when the medicine was clearing at the system it
made them look somewhat restlues, and to persevere;
and he insisted on my taking it; and now i feel the
benefit of it. For after eight oays i began to gain my
str. ngth, and, with the exception or a cold that put
me back some, I have been gaining strength or body,
my cough is going away, and all my pains are gone;
no screness of the body my bowels are regular, and
my breath is sweet, and I thank God that I am now
going about, and sew and read as well as ever I could.
I have taken sixteen bottles of the medicine, eight of
each. I now have a good appetite and rest well at
might, my cough does no trouble me in getting up or
lying down. I would here say to the afflicted with
consumption or fiver complaint, that Dr. Schenck is no
humbug. You can rely on what he says. Delay not,
it is dangerours to trille with these diseases. If you

PIANO-FORTES.

ARE the only Instruments constructed or atruly scientific principle. They have great for the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to other Piane The construction is simple and natural | Vigor and make youth ever all the extraneous lumber in the body of the instrument is dispensed with: the sound boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong fair ron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp

form of stringing, by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Driggs is the inventor. By these improvements we gain much more vibratory power, at the taken as prescribed same time preservi, g all its purity and richness o They have received the highest testimopials from th Press, and all the principal artists in the country, among which are: Harry Sanderson, S Thalberg. Max Maretzek. Theodore Elsfield, Wm. Mason, Herman Wollenbaupt, A. Barill, M. Strackosch Francis H. Brown,

Wm. Henry Fry, Chas. Fradel. Mr. SEGESMUND THALBERG, the great plantst says:-I have examined your new Plane-fortes, and I cordially approve of its system of construction. Its principle, by which great increase of vibratory power is obtained, being very simple and perfectly philosophical. The tone is grand and noble; it has great capac ity for sustaining the sound or singing, and its vol- Invariably cure the following Disume of tone or power I have never heard excelled in depth, purity, and sympathetic sweetness.

Wm. HENRY FRY, late musical critic of the N. Y Tribune says:—I have examined your navly invented Piano-Fortes. They merit all the praise given to them by Messrs Thalberg, Gottschalk, Strackosch, Mason and others. As regards structure, they are original and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowning excel. lence which enables the planists to "sing" on the ir strument, your Pianes ever deserve the highest rank Your invention, in my opinion, is destined to work a radical change in the manufacture of Pianos through ont the world.

From the N. Y. Herald, Lept. 5 .- Upon a careful exmination of Drigg's Plane-Forte, we find the results obtained are a very fine singing tone, great purity and brilliancy lhroughout the entire instrument, not often found in Planos constructed upon the old plane.
The N. Y. Times, July 12, says:—We, have, now an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other strument; an ordinary player obtains with no exertion, the fullness of a Grand Plane Forte, and they must speedily supersede the old styles.
GENTLEMEN:—Ilnving theroughly examined and tested the Plane-Fortes invented and patented by Mr . B. Driggs, I am of the opinion that the tone regult g from his improvements, as exhibited in the in uppents under examination, in speint of richness opth and brilliancy, equals that of the best, Grand
