LIGHT EQUAL TO GAS! TATENT gas condensing burners can be used on any lamp and dispense entirely with chimneys. The flame produced by these burners spreads out similar to that of gas. The construction is such that the smoke is confined in a gas condensing chamber, and is wholly converted into flame. The burner does not depend directly upon the wick for its light, but burns the smoke which is produced therefrom. No Trimming of the Wick is Ever Required ; and also a saving of thirty-three per cent. less oil than chimney lamps; and produces a more brilliant light than any other burner in the market.

Many Frmers upon trial of this Fork finding it so easily
and safely operated, and in all respect so for superior
to any they had been using have thrown away the old
one and purchased a Harpoon Fork. It is no humburg.
Every Farmer wants one after seeing it tried. They
are made entirely of Iron and steel and are the strongset Fork made. They are small, light and neat, and
take up loss room than an ordinary hand pitch fork. A
boy with the Harpoon Fork can handle as much hay
with case as several men. The amount this Fork can
lift will astonish any one who has nover seen it operate
It makes the farmer smile and say "the Harpoon Fork

American Watches, Made at WALTHAM, MASS. N consequence of the recent great decline in gold and silver and all the materials used n the manufacture of our goods, and in auticipation of a still further decline, we have reduced our price o as low a point as they can be placed With Gold at Par, o that no one need hesitate to buy a watch now from the expectation that it will be cheaper at some future

time. The test often years and the manufacture and More than 200,000 Watches, have given our productions the very highest rank a-mong time-keepers. Commencing with the determi-nation to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months toother, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommodation to more than eight hundred work-

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks on graved on the plate:
1, "American Watch Co," Waltham, Mass. 2. "Appleton, Tracy & Co." Waltham, Mass.

3. "P. S. Bartlett," Waltham, Mass. 4. "Wm. Ellery"

AMERICAN ORGANS. (From "Godey's Ladics' Book" February,

REED ORGANS, &c. THE following remarks and sugges tions relative to this immensely popular instrument will doubtless interest and profit very many cour readers, we commend the article to their careful perusal:—

our renders, we commend the article to their careful perusal:—

A hundred and one makers of Organs, Cottago, Parlor, Cabinet, American, School Organs, etc etc., are each claiming to make the best instrument in the world.—Being comparatively a new instrument in an example of the comparatively and the problem of the world.—Being comparatively a new instrument in a transcribe an extended of the comparatively and the c to purchase an inferior a worthless Organ, ruinous to good playing, and often a source of much annoyance and wexation. We know this article to emanate from a candid and intelligent source, and thus we give it to our readors.

The question is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the sam general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more prefentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the full corp plpe organ, even, smooth, firm, and meliow; and this tone from reeds cannot be obtained in any other without the ease where the reeds open direct into the bellows or air passages, instead of a wind-chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automate jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and dipure the bellows; and as though the were not an easier matter to obtain a much botter and more casily managed swell by other methods. The truth is, any organ, so called, or molodeon which here they are not also the summary of the fact that they can obtain those that are organs in fact as well as an name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, is also a cry important improvement. By this means not only can the wind be supplied more evenly, but with far greater form the hands or feet, and that are organs in fact as well as an name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellow etters of administration on the estate

ers, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proctaining this fact, and calling the oftention of those afflicted with the discusses for which they are recommended, to these bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hodfand's Bitters is intended to benefit the afflicted, and is "not a rum drink?"

From Rev. W. D. Seigfried, Paster of Twelfth Baprist Church, Phila.

Gentlemon:—I have recently 'een laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hrofland's German litters were recommended by persons who had tried them, and whose favorable mention of these-bitters linduced use to try them. I must confess that I had an aversion to Patent Medicines from the 'thousand and one' quack "Bitters," whose only aims seems to be to paim off sweetened and drugged liquor upon the community in a siy way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation I took it with happy effect. Its action, not only upon the stemach, but upon the nervous system, was prompt and gratifying. I feel that I? have derived great and permanent bonefit from the use of a few bottles.

Very respectfully yours, W. D. SEIGFRIED, No. 254 Shackamaxon Street,

J. NEWTON BROWN, Philadelphia.

A From the Rev. E. D. Fendall, Assistant Editor Christan Chronicle, Phila. tian Unronicie, Film.

I have derived decided benefit from the use of Hoofland's German litters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general deblity or from diseases arising from derangement of the liver. Yours, truly. E. D. FENDALL.
From Rev. D. Merrigo, Pastor of the Passyunk Bapdst Church, Phila. From the many respectable recommendations given given to Dr. Hoofland's Goman Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach.

From Rev. J. Newton Brown, D. D., editor of the Encyclopedia of Religious Knowledge and Christian Chronicle Philadelphia.

Although not disposed to favor or recommend Patent Medicinos in general, through distrust of their ingredients and effects, I yet kin we of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hepe that he may thus contribute to the benefit of others. I do this the more readily in regard to Hooland's German Bitters, prepared by Pr. O. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my fit find, Robert Shoomaker, Esq., for the removal of this prejudice by proper lesis and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of the sellitors at the beginning of the present year, was followed by evident relief and restoration to a degree of bedily and mental vigor which I had not felt for six months be often, and had almost despaired of regaining I therefore thank God and my friend for directing me to the use of them.
