gave evidence of both talents, perseverance, and industry—good qualities in a wife, and which gave them claims over others who could only boast of a huge waterfall greate than Niagara, or a gipsey Queen with its wreath of green, so nicely poised and bal-anced on the summit level as the to excite the admiration and wonder of the gazing multitude. Or even the modest Japanese Sun Down which sometimes hid bright eyes beneath. For every young gentleman worth having, would prize the adornment of the inner cranium beyon the exterior; and after all, it did not matter much what furbelows were on the head, if there was something to compensate beneath. But Mr. Hamilton protested against the girls borrowing and wearing the boys hats, and sometimes their coats with buttons before, and buttons behind, for that he feared the next swap, the girls would put on the trowsers, and give the boys the petticents, and then we could not tell, whether Betty was of the masculine

or feminine gender.

Mr. Hamilton urged the importance of time, as the earth was moving if we believed the Astronomers at the rate of a thousand miles a minute, and that his young friends should turn it to the best account; and this was the last problem he had to solve. When the Committee of Finance in Congress or the Legislature brought in a bill of appropriation, so many dollars and cents were appropriated to this object, and so many to that, now his advice was, not in the appropriation of dollars and cents, but of the hours and minutes of each day, so many to this, and so much to that, not forgetting a due proportion to exercise and recreation. If this was strictly adhered to, they would be astonished themselves at what they could accomplish in a given time, but whatever might betide them, he earnestly desired they should not forget the debt of ratitude they owed to their .teachers who ias toiled and labored for their welfare, but write their names on the tables of their memory, as those to whom they owed a lasting debt of gratitude.

The exercises went off very pleasantly and satisfactory with the exception of some noisy boys in the gallery whom the polic employed made no effort to correct.

AMERICAN ORGANS.

(From "Godey's Ladies' Book" February, REED ORGANS, &c.

THE following remarks and suggest thous relative to this immensely popular lastrument will doubtless interest and profit very many of our readers, we commond the article to their carous

A hundred and one makers of Organs, Cottage, Parlor, Cablinet, American, School Organs, etc etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there are some excellanced in the constructed in the public should have some cited from the sarticle knowing of them, some facts which will enlighten them. We cheerfully conced the space for this article knowing the there is hardy a family, or church, or school in all the there is hardy a family, or church, or school in all the data but is more or less interested in this topic. We are also aware of its being a great misfortune, a real estamity, to any of them to purchase an inferior or worthless fran, rulinous to good playing, and often a southless fran, rulinous to good playing, and often a southless fran, rulinous to contraders.

The question is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old meledeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangoment. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reed open, and the tone has room to expand and perfect itself into the full rund tone, similar to the fult or pipe organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open, she had believed to the fact that they come makers even go so far as to claim this spasmodic or automatic jerking of the be

From Rev. W. D. Seigfaled, Pastor of Twelfth Bap st Church, Phila. tist Church, Phila.

Gentlemen:—I have recently leen inboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of these bitters induced me to try them. I must confess that I had an aversion to Patent Medicines from the "thousand and ono" quack "Bitters," whose only aims seems to be to palm off sweetened and drugged liquor upon the community in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation I took it with happy effect. Its action, not only upon the st mach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours, W. D. SEIGFRIED. No. 254 Bhackamaxon Street,

From Rev. J. Newton Brown, D. D. editor of the Encyclopedia of Religious Knowledge and Christian Chroulcle Philadelphia.

Altaough not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet kn. w of no sufficient reasons why a man may not testify to the henefits he believes blimself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to Hoofland's German Bittors, prepared by Dr. O. M. Jackson, of this city, because I was prejudiced against them for many years, under the limpression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Eq., for the removal of this prejudice by proper tests and for encouragement to try them when suffering from great and long continued debility. The use of three bottless of the Se litters at the beginning of the present year, was followed by sydent relief and restortion to a degree of bottle and the beginning of the present year, was followed by evident relief and restoration to a degree of bedily and mental vigor which I had not felt for alx months before, and had almost despaired of regaining I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN, Philadelphia A

From the Rev. E. D. Feudall, Assistant Editor Christian Chrontele, Phila.

I have derived ducided benefit from the use of Hoof-land's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general deblitty or from diseases arising from deraugement of the liver. Yours, truly. E. D. FENDALL.

From Rev. D. Merrige, Pastor of the Passyunk Bap-ist Church, Phila.

From the many respectable recommendations given given to Dr. Hoofland's Go man Bitters, I was induced to give them a trial. After using several bettles i found them to be a good remedy for debility, and a most excellent tonic for the stomach. D. MERRIGE. N

From the Rev. THOS. WINTER, D. D., Paster of Rox borough Baptist Church. Dean Sin: I teel it due to your excellent preparation Hoofland's German Bittors, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced a great and unexpected relief. My health has been very materially benefited. I confidently recommend the article where I me et with cases similar & now own, and have been assured by many of fidently recommend the article where I met with cases similar to my own, and have been assured by many of their good effects.

ARMY OF THE POTOMAC. BY WILLIAM SWINTON. The Standard History of the GRAND ARMY.

The greatest Work of the War. Universally endorsed by army officers and the press
THE AUTHOR SAYS:—
"I design in this volume to record what that Army
did and suffered in ten campaigns and two score bat-Ites.

I shall have to celebrate the unswerving loyalty of this army, that oftimes when the bond of milliary cobesion failed, held it, unshaken of fortune, to a duty constitution. this army, that of times when the bond of military cobesion failed, held it, unshaken of fortune, to a duty self-imposed.

I shall have to fo'low it through a checkered experience, in a tale commingled of great misfortunes, great follies and great glories; but from first to last it will appear that, amid many buffets or fortune, through "winter and rough weather," the Army of the Potomac never gave up, but made a good fight, and finally resched the goal.

Of this drama there will be no other here than the Army of the Potomac letelf: for it would seem that in this war of the Pope it was decreed there should arise no imperial prosence to become the central figure and cynosure of men's eyes. Napoleon, in an outburst of haughty eloquence, exclaims that in the great armies of history the Commander was everything. This proud apotheosis has no application for the Army of the Potomac. And one must-think—seed if it never had a great, and generally had medicere commanders—it was that it might be raid, that wherever it won it ewed not to genius, but bought with its blood."

This is the only History of the "Grand Army," and no one who has borne a part in its conflicts, or is interested in its grand achievements, should be without it. This work presents a rare chance to make money. Agents wanted. Seed for circulars and see our torms.

RELIEF IN TEN MINUTES. Bryan's Pulmonic Wafers! DIYAH S PHIMIOHIC WEIGTS 1

3D. The original Medicine established in 1837, and first article of the kind over introduced under the name of "PULMONIC WAFER." In this or any other country; all other Pulmonic Wafers are counterioits. The gendine can be known by the name BRYAN being samped on each Wafer.

These Wafers have been before the public for nearly thirty years, and the immonse sale attained, not only in america but in foreign countries, faily attest their intrinsic worth. The medical propoches are superior cany other at ticle offered for the cure of Pulmonary or Bronchial affections, and the quantity contained in each box is nearly double that of the many worthless imitations advertised.

Bryan's Pulmonic Wafers

oure Coughs, Colde, Sore Throat, Hoarsones, Asthina, Catarrh, Brouchitis, Difficult Breathing, Spitting of Blood, Pains in the Chest, Locipicat Consumption and all diseases of the lungs. Not only affording temporary relief, but offecting a rapid and lasting core and are warranted to give satisfaction in ever instance. They do not manesate like alcoholic compounds, and the medicinal properties are combined in a form so agreeable and pleasant to the taste, that any child will readily take them. One dose will always afford RELIEF IN TEN MINUTES. RELIEF IN TEN NAINUTES.

To Vocalitars and Public Speakers, these Wafers are peculiarly valuable: they will in one day remove the most sovere occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The very great celebrity of this invaluable remedy has induced unprincipled persons to prepare base imitations, which disappoint the just expectations of the purchaser, and injure the character of the genuing medicine.
