Patent Metallic Sole.

A NEW INVENTION. .. WETTING THE FEET is the most prolific cause of disease and death known to imanity. It is almost sure to bring on a cold; and ids, neglected, and often when not neglected, lead to hamanity. It is almost sure to bring on a cold; and colds, beylected, had often when not neglected, lead to tevers or to coughs and latal consumptions. It is in recognition of this ruth that the inventive talent of the country ha for years been devising some method, or attempted to devise it, for keeping the feet dry, and yet that should not give inconveniens to the wearer. Rubber shoes, in one form or another nave hitherto been our reliance; but it is well known, as among their many evils, that while they keep the feet dry from external mosture, they sweat them over much, and by thus inducing an undue tenderness increase a susceptibility to colds rather than otherwise. They are also cumbursome to the feet, and withal are very expensive. The demand is for omething that shall make the ordinary Boot and she impervious to water, without affecting their elegance or duras lifty, and, if possible, without adding sensibly the cost of their manufacture. These, it will be conceded, are most important features, and we conscientiously affirm that they are absolutely attained in the inventin herewith pres med to the public.

The invention consists in inserting between the inner and outer sole, when the boot is making, a thin Metallic Platz, exceedingly ductile, combining flexibitive with treatments of the public to the end desired, while the additional expense is merely nominal. If furnishes a perfect barrier against the admission of wet or dampness, though the feet may be exposed ever so long upon wet payements or damp ground.

ground.
To ladies and children the Metallic Solls will be of incidulable value, as from their habits of life and delicacy of dross, they are particularly exposed to the long train of ills that attend upon an inadequate protection

leasy of dross, they are particularly exposed to the long train of ills that attend upon an inadequate protection to the feet.

These Soles have already been tried by the best of all tests actual use, and the Aestimonials to their morits, freely proffered, indicate that they must be speedly and universally adopted by the public. The Patent Metallic Soled Boots and Shoes are being instrudured into the le-ding Boot and Shoes foresthroughout the United States, and will supplant all forms of overshoes, except possibly fr deep mud or snow, as they become known. Be sure to get them and take no other. If your shoemaker dows not happen to have them, he can procure them without difficulty. If the will not, then send yourself to the Inventor one dellar and thirty cents, and obtain six pair, assorted sizes, with right to use, which will be promptly forwarded by mail or express pre paid, and which can be made up by any shoemaker in the country. Agencles, will be established incovery lity and village, and supplied with Soles and proprietary stamps, at schedule prices, and liberal comission allowed on sales. Also General Agencies for States appointed on application, with proper testimonials to the inventor.

Read who Says So. From the Rev. Levi G. Beck, Pastor of the Baptist Church, Pemberton, N. J., to merly of the North Bap-ist Church, Philadelphia, at present Pastor of the Saptist Church, Choster, Pa.

I have known Hordand's German Bitters favorably for a number of years. I have used thom is my own family, and have been so pleased with their effects, that I was induced to recommend them to many others, and know that they have operated in a strikingly betteltcksi manner. I take great pressure in thus publisher with the reget produce in thus publisher well as the product of the lely proclaiming this lact, and cailing the stention of those afflicted with the discases for which they are recommended, to those bitters, knowing from experi-ment has my recommendation will be sustained. I to this more cheerfully as Hoofland's Bitters is intend-ed to benefit the afflicted, and is "not a rum drink".

From Rev. W. D. Seigfried, Pastor of Twelfth Bap-st Church, Phila. tist Church, Phila.

Gentlemou:—I have recently leem laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without reliet. Your Heofiand's German bittors were recommended by persons who had tried them, and whose favorable mention of these. Litters induced me to try them. I must confess that I had an acresion to Patent Medicines from the "thousand and one" quack "Bitters" whose only aims seems to be to pain oil sweetned and drugged Hquor upon the community in a sly way, and the tendency ct which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation I took it with happy effect. Its action, not only upon the st mach, but upon the nervous system, was prompt and grailying. I feel that I have derived bottles.

Very respectfully yours,

Very respectfully yours, W. D. SEIGFRIED, No. 254 Shackamaxon Street,

From Rev. J. Newton Brown, D. D., editor of the Encyclopedia of Religious Knowledge and Christian Chronicle Philadelphia.

Altaough not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to floodiand's German Bitters, prepared by Dr. O. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq., for the removal of this prejudice by proper tests and for encouragement to try them whom suffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and montal vigor which I had up fett for risk months be fore, and had almost despaired of regaining I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN, Philadelphia.

J. NEWTON BROWN,

 \mathbf{A} From the Rev. E. D. Fendall, Assistant Editor Chris-in Chronicle, Phila. I have derived decided benefit from the use of Hoof-land's German Bitters, and feel it my privilege to rec-ommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

From Rev. D. Merrige, Paster of the Passyunk Baptist Church, Phila: tist Church, Phila:

From His many respectable recommendations given given to Dr. Hoofland's Gorman Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach. D. MERRIGE.

N

From the Rev. THOS. WINTER, D. D., Pastor of Roxborough Baptist Church.

Bean Sin: I leel it due to your excellent preparation Hoofiand's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my, head and nervous system. I was advised by a friend to try a boldle of your German Bitters. I did so, and have experienced a great and unexpected relief. My, health has been very materially benefited. I confidently recommend the article where I met with cases similar to my own, and have, been assured by many of their good effects:

MONSUMPTIVES, READ WHAT DR. SCHENCK IS DOING.

READ WHAT DR. SCHENCK IS DOING.

DR. J. H. SCHENCK.

Dean Sin:—I feel it a duty I ows to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint, to let then know what great benefits I have received from your Pulmonic Syrup and Seaweed Tonic in so short a time. By the blessing of God it has cured me thus far Dr. Schenes, I will now make my statement to you, as follows:—About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; if could not retain anything I ate, and suffered with ovening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise m; skin; my appetite all gone, and unable to digest what I did eat; bowels swoolen, irregular and costive. I was very low spirited, and had such violent spells of coughing when I laid down at night and when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely

l arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely anable to lie on my left side. I cannot describe, my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1802, to June, 1803, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. Tat this time raised a large quantity of thick, yell w, offensive matter, sometimes with blood, and it was generally accompanied by nausea and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting pains in my left side and heart, night sweats, and soreness all through my whole chest; hadmuch in ward fever, pain in my back and under my shoulder blades and in the small of my back, and at times to severe that it would throw me late spasms. Now my physician gave me up to die Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing but skin addones I then was in the western, part of Miscouri. In June last we left there for the East, and in August last we came to cow York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a shert time the sait water breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best hy.

cow York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time the sait water breaze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, and dectors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In Nevember last I grow worse, and the consumption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my diseases—consumption and liver complaint—but of no avail.

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all give me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to a cine to last of the week, and brought the Sunday Myroury. In it was an account of a great cure perf rimed by Dr. Schenek. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1863, my husband called on Dr. Schenek, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me which he did, and examined me with the respiroimeter. When he was about to go I asked him if he could cure me? His reply was; "I cannot tell, both lungs are diseased, and the brouchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said norder to do this, he would have to give me Mandrake wished my muschild hot to give me any more medicine. But the doctor had warned him if this, and when the medicine was clearing out the system it made them fool somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For after eight day's I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining strength or body, my cough is going away, and all my pains are gone; no soreness of the body my bowols are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and rest well at night; my cough does not trouble me in getting upor lying down. I would here say to the afflicted with consumption or liver complaint, that Dr. Schenck is no humbug. You can rely on what he says. Dolay not; it is dangerours to trifle with these diseases. If you would be curred go at once; and any one wishing to know the facts as herein stated can call at my residence, 177 West Houston street, New York city.
