MAGGIEL, is the founder of a R. MAGGIEL, is the Younder of a new medical system. The quantitarians whose vast internal dosso an feeble the atomach and paralyze the bowels, and with whose external remedies ulcerated and eruptive surfaces are deluged in vain, must give place and precedence to the man who restores health and appetite with from one to three harmiess pills, and gures the most virulent and scorbuite disorders with one or two boxes of his saive. Maggiel's Pills and Salve have ushered in a new medical era. No more nausenting avalanches of drastic pills need be poured down sick people's the lost. One of Maggiel's Pills rectifies the disordered condition of the stomach and bowels, and makes health return where it has vanished. In fact Maggiel's Billous, Dyspeptic and Diarrhmo Pills cure where all others fall. While for Burns. Scalds. Chilblains, Cuts, and all abrasions of the skin, Maggiel's Salve is infallible. Sold by J. AMERICAN ORGANS

(From "Godey's Ladies' Book" February, 1866.) REED ORGANS, &c.

THE following remarks and suggestions relative to this immensely popular instru-nt will doubtless interes and profit very many of readers, we commend the article to their careful our readers, we commend the article to their careful perusal:

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, Sc. coll Organs, etc etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really an essential difference in them, if there are around a sexual lent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We choorfully oncede the space for this article knowing that there is hardly a family, or church, or school in all the land, but is more or less interested in his topic. We are also aware of its being a great misfortune, a real calmity, to any of them to purchase an interior or worthless Organ, ruinous to good playing, and often a source of much annoyance and vexation. We know this article to emanate from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, what are "read organs".

ing a great misortone, a real calimity, to any of them to purchase an interior or worthloss trgan, rulnous to good pli-ying, and often a source of much annoyance and vexation. We know this article to ensante from a candid and intelligent source, and thus we give it to our readors.

The question is often asked, what are "reed organs!" We adswer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same believes the same reeds, and the sam g n-ral interna arrangement. With the believe turned one ge to gain room, they have simply put on a more protentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full round tone, similar to the dute or pipe organ, even, smooth, drm, and mellow; and this tone from reads and the tone has room to expand and perfect itself into the full round tone, similar to the dute or pipe organ, even, smooth, drm, and mellow; and this tone from reads as more the reeds open direct into the hellows of air passages, instead of a which chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very sught, throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a muca better and mure easily manage; swell by other methods. The truth is, any organ, so called, or melodeon which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musiciaus become awa e of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell showing he will be supplied more evenly, but with far greater e
