REASONS WHY THE AMERICAN WATCHES Made at WALTHAM, MASS.

IS THE BEST. T is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of sevoral hundred pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines and "English Patent Levers," are perfectly well aware

of the truth of this statement. At the beginning of our enterprise, more than to years ago, it was our first object to make a thoroughly good low priced watch for the million to take the place of these foreign impositions-the refuse of foreign factories-which were entirely unsaleable at home and

While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves and unsurpassed by anything made in the world. have erected an addition to our 'main buildings ex- vation pressly for this branch of our business, and have all-will be made known by ed it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and ex actness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in
