OUR TICKET.

As the time for the decision of the grave issues on trial in the present campaign is rapidly drawing to a close, it is well to prosent to the voters of the County a brief history of the men whose names appear on our State, district and local tickets, as the chosen standard bearers and representatives of the principles upon which the Union Republican party goes into the conflict of the ballot oox, appealing to the sound sense and enlightened judgment of an intelligent and patriotic people for their support. At the head of the ticket is the tomo of our candidate for the Chief Magistracy of the Commonwealth, MAJOR GENERAL JOHN W GEARY, of Cumberland County. He has during a great portion of his adult life been in prominent official position and has made a record which is known and read of all men, and whether as Judge, Governor, Mayor or General, we challenge the severest scrutiny into his official or unofficial conduct. His private character is unimpeachable, the tongue of the slander lacks the cunning to invent a calumny which JOHN W. GEARY'S world-wide reputation for absolut purity of character would not defeat. The very worst his political enemies have to say of him is that when the question was presented to him of fealty to a political party, whose practices had become destructhe country, or loss of official position and power, he unhesitatingly chose the latter and severed forever the political ties and associations through which he could have obtained emolument and patronage only at The military record of Gen. GEARY is written on every page of the history of the eloquent attestations of the fearless and ear-

With such a candidate as the exponent of the immutable principles of the great Union in treason and rebellion, the issue cannot be doubtful. We come next to our candidate for Con-

ed ability in the conduct of public affairs, enjoying the respect and admiration of his fellow members and his constituents. At the outbreak of the rebellion he was chosen to command a compary made up from the best and most patriotic of our townsmen. Mr. Diehl resided several years, as Americen Censul, in the Island of Java, during which time he visited the interior of the Island and found it filled with palaces and temples and ancient ruins, of the most wonderful character. He then visited China and there traversed the continent of Asia westward, through Birmah, India, Persia, the ruins of Babylon and Nineveh, Palestine and into Egypt. He possessed unusual facilities for seeing and investigating what should be seen by the traveler.
