HOOFLAND'S GERMAN BITTERS, WILL CURE EVERY CASE OF Chronic or Nervous Debility, Diseases of the Kidneys,

0

That this Bitters is not Alcholic,

Read who Says So.

From the Rev. Levi G. Beck, Pastor of the Baptist thurch, Pemberton, N. J., tormerly of the North Baptist Church, Philadelphia, at present Pastor of the Baptist Ohurch, Chester, Ph. I have known Hooffand's German Bitter, favorably or a number of years. I have used them in my own unity, and have been so pleased with their effects, but I was induced to recommend them to many oththat I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pieasure in thus publicly proclaiming this lact, and calling the attention of those afflicted with the diseases for which they are recommended, to those bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

The same From Rev. W. D. Selgfried, Paster of Twelfth Baprish two. W. D. Seighred, Paster of Twelfth Raptist Church, Phila.

Gentlemen:—I have recently been laboring under
the distressing effects of Indigestion, accompanied by
a prostration of the nervous system. Numerous remodies were recommended by Irlends, and some of them
tested, but without relief. Your Heofiand's German
Bitters were recommended by persons who had tried
them, and whose favorable mention of these bitters
induced me to try them. I must confess that I had
an aversion to Patent Medicines from the "thousand
and one" quack "Bitters," whose only sims seems to
be to palm off sweetened and drugged liquor apon the
community in a siy way, and the tendency of which,
I fear, is to make many a confirmed drankard. Upon
learning that yours was really a medicinal preparation I took it with happy effect. Its action, not only
upon the st mach, but upon the nervous system, was
prompt and graiffying. I feel that I have derived
great and permanent benefit from the use of a few
bottles. ist Church, Phila fevers or to coughs and tatal consumptions. It is in recognition of this rith that the inventive talent of the country ha for years been devising some method, or attempted to devise it, for keeping the feet dry, and yet that should not give inconvenience to the wearer. Rubber shoes, in one form or another, have litherto been our reliance; but it is well known, as among their many evils, that while they keep the feet dry from external moisture, they sweat teem over much, and by thus inducing an undue tenderness increase a susceptibility to colds rather than otherwise. They are also cumbersome to the feet, and within are very expensive. The domand is for comething that shall make the ordinary Boot and shoe impervious to water, without affecting their elegance or duracility, and, if possible, without adding sensibly to the cost of their manufacture. These, it will be conceded are most important features, and we conscientiously affirm that they are absolutely attained in the invention herewith press that to the public.

The invention consists in inserting between the inner and outer sole, when the boot is making a thin Matallic Plate Reveedingly duettle, combining flexibility with toughness, very light, and avery way apapiet to the end designed, while the additional expense is more; nominal. It furnishes a perfect barrier against

W. D. SEIGFRIED. No. 254 Shackamaxon Street,

From Rev. J. Newton Brown, D. D., editor of the En-cyclopedia of Religious Knowledge and Christian Chronicle Philadelphia. Although net disposed to favor or recommend Patent the system of th

ian Curonicio, Prina.

I have derived decided benefit from the use of Hoofland's German litters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general deblifty or from diseases arising from derangement of the liver. Yours, truly. E. D. FENDALL, From Rev. D. Merrige, Pastor of the Passyunk Bap-ist Church, Phila. From the many respectable recommendations given given to Dr. Hoofland's Go-man Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stemach.

D. MERRIGE. N From the Rev. THOS. WINTER, D. D., Paster of Rox-borough Baptist Church. Dear Sir: I feel it due to your excellent preparation Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. Idd so, and have experienced a great and unexpected relief. My health has been very materially benefited. I confidently recommend the article where I meet with cases similar to my own; and have been assured by many of their good effects.

Respectfully yours,
T. WINTER,

T. WINTER, Roxborough, Pa. RECEAL OF PARTY OF BEWARE OF COUNTERPRITS: See that the signature of "C. M. JACKSON" is on the wrapper of each bottle. PRINCIPAL OFFICE, AND MANUFACTORY. No. 681 Arch Street, Philadelphia, Pa. JONES & EVANS,

AMERICAN ORGANS. (From "Godey's Ladics' Book" February, REED ORGANS, &c.

tions relative to this immensely popular instrument will doubtless interest and profit very many cour readers, we commend the article to their careful por readers, we commonate the article to their careful, por usal;—
A hundred and one make the best instrument in the world. Being comparatively a new instrument in the world. Being comparatively a new instrument as at present constructed, we are convinced the public are much less capable of judging of its merits, or demorits, than of most other instruments. If there is really an assential difference in them, if there are some excellent and some worthless ones, the public should have some oriterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article knowing that there is hardly a family, or church, or school in all the land, but is know a consinterested in this topic. We are also avafre of its beling a great misfortune, a real calamity, to any of them to purchase an inferior or worthless Organ, ruinous to

THE following remarks and sugges-

ng a great misortung a teat cananty, o any of them to purchase an inferior or worthless Organ, ruinous to good playing, and ofton a source of much annoyance and vexation. We know this article to enanche from a candid and intelligent source, and thus we give it to and vexation. We know this article to emanate from a candid and Intelligent source, and thus we give itto our readers.

The question is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old meledeen in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have slumply put on a more prefentious exterior and a more high sounding name. But an organ, to be in reality an organ, must have a wind chest or reservoir for air separate from the bellows, into which wind-chest the reeds open, and the tone has room to expand and perfect it self into the full round tone, similar to the full so organ, even, smooth, frun, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bollows on air passages, instead of a wind-chest or sound-lox. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on threeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any, organ, so called, or melodeon which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordoon, dress it up as you may. And when organists and true musiciaus become awar of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the h

wither bellows alone will be sufficient for the lightor molodies, thus permitting the player to change about and rest the feet at will; than, if the bellows is of the requisite large size, and having the wind-cliest or reservoir, all will be well. As to the resks, they must be geientifically turned and voiced, or all the other good qualities in the world cannot produce, zoel tened instrument. The inquiry now very naturally arises, where can the organ be preserved sculturing all these essential and desirable qualities? There i only one possessing all these points, and that's the AMERICAN ORGAN, made by S. E. A. H. W. SMILLOR BOSTON, SMILLOR OUT Wholesde Agent, 5st be adway. New York, These organs have a while-dest eviending the whole length of the instrument and so constructed as to act at the same time as a reverberating sound-box whole length of the instrument and so constructed as to act at the same time as a receiverating sound-box or board, and having the same important relation and part to perform that the sounding-board has to the plano. This leature the makers have patented, and to it are owing in a great measure the entirely unequalled fullness and rich less of tone so highly prized by all who have used those organs. They also have the largest and best divided bells with use, which is another important leature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically, and, judging from the immense sale of them at present, they bid fair to long maintain the proud position they have wen by superfor merit alone. We would most heartily advise all interested to call upon or address Ma. Singars Ott. the Wholesale Agent, at 581 Broadway, New York, and can assure them he will, in the most gentlementy and qualified them he will, in the most gentlementy and qualified them he will, in the most gentlementy and qualified them he will, in the most specific merit alone may be a superference of the same and the manner, impart the most gentlementy and truthful manner, impare them all the information they may desire relative

NOTHER GREAT CURE IN THE CITY OF NEW YORK, Of a highly respectable citizen, well known to the Mercantile community, by DR. J. H. SCHENCK.

THE GREAT LUNG DOCTOR OF PHILADELPHIA.

Office N. Y. and Galena Lead Co., No. 28 Nassau St., New York, June 1, 1865. No. 28 Nassau St., New York, Juno I, 1805.

DR. J. H. Schenck—Dear Sir:—For over fifteen years I have been troubled with a severe cough, and usually two or three times a year with more or less hemorrhage, which to ether, for the last few years, has kept me thin in flesh and too weak to do business of any kind without guffering. In Abgust lost I had a very severe hemorrhage, and a secording to the judgment of a good New York physician, I was classed as beyond the reach of medicine, and was advised to bu prepared so far as property matters were concerned, to leave this world at short notice. The physician (and my good friends) sait that the first coul I took must prove fatal. Early in January Ptook a severe cold, and fortunately was occupying roogns at No. 32 BOND STIEET, dieetly over your office. Lithink about the leth of January I procured a bottle of your Pulmonic Syrup and commenced taking it treely. My feet and limbs wore very much swotlen, and all theysymbolism of a speedy death seemed to accompany my cold. I sont for my former physician, and staved to him that I was taking your medicines, and atter showing fleen to him, and having tastet of them, &c., he replied; "You can take them if you like they will do you no harm." medicines, and after showing them to him, and having taster of them, &c., he replied; "You can take them if you like, they will do you no harm." He said: "You know what I took you have any business to close up, do not put it off." He said to other friends that he "courd see no hope to me," and my friends and relifions concluded my time had come. At this time I was taking freely of your medicine, but had not seen you. The dector called a few times, and found me (much to his surplies, he said, disprevance and he could not understand why. My faith was increasing in your medicines, and I had a wish to have you examine my case, and see what you had to ay. When you first came to my

ing me still gaining, you gave me encouragement, saying, 'my symptoms were improving; the Pulmanic Syrup. Sea-weed Ionic and Mandrake Pills had acted like a chaim.' My circulation, my cough, my appetite, all began to improve, and I could walk about my room a little. You visited me nearly overy Tuesday, and tofund me improving, and toful me not to go out of my room until the first day of May. I took no cold while under your treatment, my appetite became first-rate, and you told me to eat everything I wished of a nutrition suture, and to exercise about the room as much as possible. I followed your advice, and to the surpise of my old physician and trionds, I seem much better than I have been for several years, and breathe better than I ever expected a person could with one lung, the loft being completely circled up. I feel very grateful to you, and consider your advice and medicines luvaluable.

Yours, truly, ng me still gaining, you gave me encouragement, say Yours, truly,

Yours, truly,

T. S. SHELDON.

DR. SCHENCK—Dear Sir:—About two years ago I wa taken with a very troublesome cough and a pain in my breast; seven or eight months passed away without my doing anything for myself. Then I applied to a physician, who attended no for about three months without rendering me any service. I also obtained the advice and treatment of a physician in one of our bospitals, and also had the advice and treatment of two other physicians but all to no purpose. During this long space of time I was nearly dead; several times my friends came to see me and witness my exit into the spirit-world. I was confined to my bed two months at one time. My breathing was exceedingly short. I gave up several times all hope of getting better; and as regarded getting well, that was entirely out of the question. And to think this day, I am well and heartyl was advised by some of my friends totry by. Schenck's Medienos. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered severely trom palpitation of the heart, and twe weeks after 1 communeed taking your medicine this difficulty cessed.

When I first wont to br. Schenck's office it was with When I first went to Dr. Schenck's office it was with

when I first went to Dr. Schenek's office it was with oilleuity that I could get up, into his reception room, I was so weak and so swelled'; my skin was as sallow as though I had the jaundies 'i'' lolt dull, heavy and shough I had the jaundies 'i'' lolt dull, heavy and shough I had the jaundies 'i'' lolt dull, heavy and shough I had the jaundies 'i'' lolt dull, heavy and shough is not not not shough it was weak took right hold of me; it seemed to go right through my whole system. The Pulmonic Syrup, Sea-Weed Tonle and Mandrake Pills, all took right hold in the right place. The Pills brought away great quantities of bile and sline; the Syrup lossoned the matter in my lungs, which came off very free; the Soa-Weed Tonle gave me an appetite, and everything seemed to taste good.

To show what great power the medicines have in purifying my system, and to show how bad I was diseased, beside all the bile that passed my bowels, and the great quantities of phiegm and matter I expectorated, I broke out all over in large boils, that would continue to gather and run for about six weeks, and I had at one time over twenty-five boils. I have nothing of the kind now, and feel like another person altegether. I can safely say that I have not enjoyed such health for five years as I do now, and cannot praise you and your medicines enough. May G d abundantly bless and preserve you! is the sincere desire of one who has been so wonderfully relieved through your agency; and if any one desires to know with regard to the truthfulness of this report, if they will call upon any of my friends, or upon ma, No. 4 Dryden Place, near Thompson street, below Cadwahder, Philadelphia, they will be perfectly satisfied with the validity of the case, Yours, with much respect, MALY SUINAIDT.

The above case, as described, is perfectly correct. I know it to be true. Yours, T.B. MILLER, Pastor of Hanceck M. E. Church.

Dr. SCHENCK will be professionally at his principal office, No. 15 North Sixtic Street, corner of C. MMERGE, PHILADELPHIA, every Saturday, from 0 A. M., No. 32 Summer street, Boston, Mass., every Wednesday, from 9 to 3; No. 38 Summer street, Boston, Mass., every Wednesday, from 9 to 3; and every other Friday at 108 Baltimore street, Baltimore, Md. All advice free, but for a thorough examination of the lungs with his Respiranter, the charge is three dollars.
