The question is often asked, what are "reed organs?" We adswer, "they are, in most cases, nothing in the world but the old melodeon, and figuise. Many of the so-called organs have the same beliows, the same reeds, and the same guard internal arrangement. With the beliows turned on edge to gain, room, they have simply put on a more prefer they exterior and a mare high sounding name. Dut an örgan, to be in reality an organ, must have a wind chest by reservoir for air separate from the beliews, into which wind-chest the reeds open, and the tone has room to expand and-prifect itself into the full round tone, similar to the flut or plane organ, even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in aby other way known. Nothing so annoys a true organita as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is slways the case where the reeds open direct into the bellows or air passagges, instead of a whad-hest or sound-box. And yet some makers even go so far as to chain this spasmodic or automatic jorking of the belows on his spasmodic or automatic jorking of the belows on his spasmodic or automatic jorking of the belows on his spasmodic or automatic jorking of the below of tune, and injure the bellows; and as though the week out of tune, and injure the bellows; and as though the week out of tune, and injure the bellows; and as though the week out of tune, and injure the bellows; and as though the week of tune, and injure the bellows; and as though the week of tune, and injure the bellows; and as though the week of tune, and injure the bellows; and as though the week of tune, and injure the bellows; and have the week of the feet that they can obtain the set that the week of the passage of the passage of the pas

READ WHAT DR. SCHENCK IS DOING.

DR. J. H. SCHENCK.

DAR Sh: — I feel it a duty I-owe to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint, to let them know what great bonefits I have received from your Pulmonic Syrup and Scawbed Tonic in so short a time. By the blessing of God it has cured me thus far.

Dr. behnoek, I will now make my statement to you, as follows: — About eighteen months ago I was patacked with a severe cough, and it settled on my lung; I could not retain anything-I ate, and suffered—with evening fovers and night sweats. I was very much reduced. The whites of my cyos were very yellow; illewise m, skin; my appottle all gone, and unable to digest what I did cat; howels sawoolen, irregular and costive. I was very low spirited, and had such violent spolls of coughing when I laid down at night and when I arose in the morning that they would last one or tyo hours.

I then would be nearly exhausted, and was entirely

spons of congining when I laid down at high and when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie ou, my lert side. I cannot describe my wrethed suffering as I would wish to do. Every organ in my body was discussed or deranged. Such was my stome that the terms, and I was confined to my stome that the terms, and I was confined to my stome that the terms, and I was confined to my allow the stome, and I was confined to my stome that the terms of the stome, and I was confined to my lead to sit up. I had the bester in the stome, and the stome, and the stome that tracked my very much. I st this time raised in the whole of the time, My cough was covery but that it racked my very much. I st this time raised in my sense and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting paths in my left side and heart, night sweaks, and soreness all through my whole chest; hadmuch in himself-my with the standard of the standard the standard the world in the standard the standard the standard the world in the standard the standard the world in the standard the standard the world in the was nothing but skin andbones. I then was in the western part of Missouri. In done last we left there for the East, and in Augus last we cannot be cew York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time the safe water breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians or New York on the diseases of the lungs, and doctors of all Kinds, but of ne avail. They said I was part ang, and that my lungs were too far gone for any orde to cure me. But at this time I was on my feet a bout the house, out able to do much of anything. In Nevember, last I grow work, and the consumption and liver
