> REASONS WHY THE AMERICAN WATCHE, Made at WALTHAM, MASS. is the best.

It is made on the best principle. Its frame is com-cosed of SOLID PLATES. NO jar can interfere with he harmony of its working and no suddon shock can damigo its machinery. Every piece is made and fin-skade by machinery (tself famous for its novelty, as well as for its offectiveness) and is therefore properly made. The watch is what all mechanism should be nade. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL Except some high grades, too costly for general use, oreign watches are chiefly made by woman and boys, such watches are composed of several hundred pieces crowed and riveted together, and require constant reairs to keep them in any kind of order. All person

ears ago, it was our first object to make a thoroughly cool low priced watch for the million, to take the lace of these foreign impositions; the refuse of fo ign factories, which were entirely upsaleable at hom VATOHES SOLD IN THE UNITED STATES, and that present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY. unequaled by anything hitherto made by ourselver and unsurpassed by anything made in the world ressly for this branch of our business, and have filled aciness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to soil our watches for LESS MONEY than foreign watches, but we do assort without fear of courtacidation that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully watchied, and this warranteed is good at all times against us or our agents in all parts of the world.
