AMERICAN ORGANS.

(From "Godey's Ladies' Book" February, 1866.) REED ORGANS, &c.

THE following remarks and sugges-ment will doubtless interest and profit very many of our readers, we commend the article to their careful perugal: mont will doubtless interest and profit yery many of our renders, we commend the article to their careful perusal:—
A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc. etc., are cach claiming to make the best instrument in the world. Being comparatively a new instrument in the world. Being comparatively a new instrument, as at much less capable of judging of its merits, or demorits, than of most other instruments. If there is really an essential difference in them, if there are seally an essential difference in them, if there are seally an essential difference in them, if there are seally an essential difference in them, if there are seally an essential difference in them, if there are seally an essential difference in them, if there are seally an essential property of the seal of th

to purchase an interior or worthless Organ, ruinous to good playing, and often a source of much annoyance and vexation. We know this article to comanto from a candid and intelligant source, and thus we give it to our caders.

The question is often asked, what are "reed organs?" We adswer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same hellows, the same rocking and the same yeneral internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior and a more high sounding name. But an organ, to be in gong and the form that we alway debat of the red of the reeds of the command in the sounding name. But an organ, to be in gong and from the bellows, into which come the form of the reeds open, and the tome has to the expand and perfect the self into the full most high the company of the town of the command of the come, and any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking apsended lay with overy variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air passages, instead of a wind-chest or sound-box. And yet some makers even go so far us to claim this spasmodle or automatic jerking of the bellows on the roods as an excellence, just as though they did not know that it must very soon throw the reeds out of turne, and injure the bellows; ind as stought two or turne, and injure the bellows; ind as stought two or horses in unaged swell by other methods. The truth is, any organ; so called, or unclodeon which has the wind acting directly upon the reads, is nothing, but corresient, so that the player can use it with the knee separate and distinct from the bellows, is a see not to be acted on by the hand, or soft blowing, but corresient, so that the player can use it with the knee separate them the hinds or feet, and thus always under easy control, to be used ad libitum.

From the Roy, Levi G. Beck, Pastor of the Baptist Church, Pemberton, N.-J.; romerly of the North Baptist Church, Philadelphia, at present Pastor of the Baptist Church, Philadelphia, at present Pastor of the Baptist Church, Chester, Pa.

I have known Hoodiand's German Bitters haverably for a number of years, I have used them in my own that I was induced to recommend them to many others, and know that they have operated in a strikingly benedicial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to those bitters, knowing from experience and the more cheer luly as Hoodiand's Bitters is intended the benedic the afflicted, and is "not a rum drink."

From Rev. W. D. Seigfried, Paster of Twelfth Bap-ist Church, Phila. Goutlemen:—I have recently i our laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system: Numerous rem-edies were recommended by friends, and some of them tested, but without relic! Your Hooland's German-Bitters were recommonded by persons who had tried them, and whose favorable montion of these, bitters induced me to try them. I must confess that I had an aversion to Patout Medicines from the "thousand and one" quack. "Bitters," whose only aims seems to be to pain off sweetened and drugged liquer uppor the compatibity in a sty way, and the tendestry of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation t took it with happy effect. Its action, not only upon the strunch, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Altaough net disposed to favor or rec mimend Patent Medicines in general, through distrust of their ingredients and effects, 1 yet, know of no sufficient reasons why a unnumy not testify to the banedist he believes himself to have received from any simple preparation. In the hope that he may thus contribute to the benefit of others. I do this the more readily in rigard to Hoofland's German Bitters, prepared by the O. M. Jackson, of this city, because I-was prejudiced against them for many years, under the impression that they form for many years, under the impression that they form for many years, ander the impression that they form for instruction and indicated to my friend, Robert Shoomakor, Esq., for the removal of this projudice by proper tests and for energement to try them when suffering from great and long continued delility. The use of these bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental rigor which I had not felt for six months before, and find and my friend for directing me to the use of them.

From Rev. D. Morrige, Pastor of the Passyunk Bapat Church, Phila. that Church, Phila.

From the many respectable recommendations given given to Pr. Hoodand's Gorman Bitters, I was induced to give them a trial. After using several bottles I found them to be a good remedy for debility, and a most excellent tonic for the stomach.
