utterly failed to accomplish what they prothe Patent Office during the present year is fess. So desirable is it to accomplish this 18,105; being an increase of 3,515 over the purpose, that we have had much experience in testing the many projects which have been invented for this purpose: all of which with us have utterly failed to attain the do-

sired end. We have based the panels upor a platform of three and a half feet long, supported by braces, and they fastened to the ground by iron spikes eighteen inches long, and they were loosened by the rain and wind, and the whole fence blown over from one end to the other, and as a necessary consequence the nandls, made of boards, entirely broken up and destroyed. We may readily see why an ordinary worm fence will stand ; the stakes are planted in the

ground, and kept in their place by two heavy rails resting upon them ; but this is a very expensive fence, and one which we

plish the purpose. -

take its course."
