PROOFS OF THE SUPERIORITY OF

THE AMERICAN • WALTHAM

WATCHES

This country has reason to be proud of this splendld specimen of American operative genius and enterprise. That it will work a rovolution in the watch manufacturing of the world no one can doubt who examines the operations of the Walthain establishment, for it turns out watch movements at just about one last the cost of imported movement—beside the uniform reliability of the machine-made watches must give them a great advantage over all others wherever known. A poor time-place of the machine make will be as rare in the future as a good one of haud make has been heretofore, for machinery is arbitrary in its performance, and cau make a period article just as easy as one that its worthers. Willies and the service of the continery first period article just as easy as one that its worthers. Willies and the propose of the works of this Company in a case for some considerable of trashy foreign articles miscalled timekeepers, by furnishing sq excellent and economical a substitute—N. I. This.

"We have had one of the works of different manufacture possessed by us, they have established in our opinion their superiority over any over introduced for correctness as time pleces."—The World:

"We notice with regret (writing of the Paris Exposition) the absence of specimens of American manufactured by the Waltham Company are certainly, so the most satisfactor charactor. The watches manufactured by the Waltham Company are certainly, for are strongth, durability, and excellence as time keepers are concerned, as good as anything produced by the french or Swiss manufactures."—N. V. Heraid.

"The behuty, the precision, the greater cheapness the uniform excellence of a watch constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference which will not be decived."—If the produced the constructed by machinery so exquisite that the mere spectacle of its operation is poetic, gradually give the American Watches a public preference which will not be decive

VALUABLE REAL ESTATE AT PUBLIC SALE. On Saturday, January 25, 1868.

By virtue of the last will and testament of Jacob Martin, due'd, I will sell at public sale, in. West airview, Gumberland county, a very desirable piece of ground, situate in said town, having thereon prected a double two-story FRAME HOUSE, to be sold separately or together, as will best sui

purchasers.

There is a lot of ground adjoining this property which can be cut off from it by a 4 ft. alley, which will be done if required; in which case said lot will be offered for sale at the same time.

Also, at the same time and place, a valuable LOT OF GROUND, situated in said town, containing about 58 feet in front and 139 feet in depth.

Eale to commence at 1 o'clock P. M., when terms will be made known by

JOSEPH MARTIN, Executor.

525MILES

Running West from Omaha Across the Continent, ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Meuntains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the read, by January. The maximum grade, from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the reck-cuttings on the wastern slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work for the construction of this Great National Work for ample. The United States grants its Six Per Coat. Bonds at the rate of from \$15,000 to \$45,000 per mile, for which: it takes a second lien as security, and receives payment to a large if not to the full extent of its claim in serrices. Those Bonds are issued as each twenty-mile section is finished, and after it has been examined by United States. Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depotts, repair shops, stations, and all the necessary rolline abok and other equipments.

The United States also makes a donation of 12,500 acres of and to the mile, which will be a source of large and the theory of the state of the latter of the company. Buch of this land in the Pactor Valve among the most fertile in the world, and other large portlons are covered with heavy or of forests and abound in coal of the best wallty.

The Company is also authorized to issue its own First Mouley is a large if no and in the latter of the latter of the control of the latter of the

EARNINGS OF THE COMPANY. At present, the profits of the Company are derived alve from its local traffic, but this is already much As present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States, will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Occurment officers, and to a large extent with Government money, and that its honds are issued under Government direction. It is believed that no similar security is so carcully guarded, and cortainly no cledy and cortainly no there is based upon a larger or some valuable property. As tha Compuny's

FIRST MORTGAGE RONDS.

FIRST MORTGAGE BONDS re offered for the present at 90 CENTS ON THE OLLAR, they are the cheapest security in the mar-t, belig more than 15 per cent. lower than U.S. tooks. They pay SIX PER CENT. IN GOLD,

STOVES AND TIN WARE. PERFECTION AT LAST F YOU WANT TO SEE THE most perfect Parlor Stove over offered to the public, step into

WM. FRIDLEY'S REAT AMERICAN BASE BURNER

NEATNESS IN DESIGN! COMPACTNESS IN SIZE!

PERFECTION IN OPERATION

FOLLOWING IMPROVEMENTS:

1.—An ample Magazine, or Reservoir, for Coll, having a free discharge mouth, the magazine being adjustable to different helpits' of six to into inches from the grate, so as to accommodate the supply of Coal as to its size and quantity, thus permitting the maintenance of a certain depth of coal for active combustion-within-the fire-pot (whether it. bo, of, nut og stove size), which is the only way to burn Anthractic coal th advantage. Different sizes of coal require more or less depth for perfect combustion.

2.—A Funnel, or Hopper, for the passage of the coal to the magazine is so arranged as to permit the introduction of fresh, coal, without allowing any secape of fumes and gas into the room; and further, when the Stove is left with its top uncovered, compelling any fumes that may escape from the supply in the reservoir into the surrounding flue, and so to the ba-o and outlet of the surrounding flue, and so to the ba-o and outlet down its whole body to the base and outlet flue by which means the beat it ramsmitted, not in separate flues soveral inches apart, as is usual in downward draft. Stoves, but by a continuous sheet of flame in contact with the soften continuous sheet of flame in contact with the soften continuous sheet of flame in contact with the soften continuous sheet of flame in contact with the soften continuous sheet of flame in contact with the soften downward, giving a far more extended surface of radiation of the heat that an complete arranged Grate, for shaking and dumping, with a good size Ash' Pap. 2, resolve the ashes and clader.

Ag-We also wish it to be noted, that is, an absolute.
