Letters of Administration on the estate to the control of the control and Reviews, and is almost indispensable On Friday, the 31 day of January, 1868, Association. The report was accepted and to every intelligent American. Ticknor the following resolutions most cordially adopted;

Resolved, That in behalf of the Soldiers Monument Association of Cumberland County, we offer our warmest thanks to the committees of the several fire companies of Carlisle, who at the request of the Association so promptly undertook, the onerous duty of managing the recent fair; and through whose unremitting personal effort zeal and efficiency it was carried through with such signal success. We recognize the spirit which actuated them in this good work as purely disinterested, illustrating the patriotic and public-spirited character of the firemen as kindred to that of the self-sacrificing citizen-soldier who rallies to his country's flag in the hour of of peril. We gladly accept the proceeds of the fair as chiefly re ulting from the generous efforts of the firemen.

Resolved that while so tally acknowledging our obligations to the firemen, we do not forget our deeper indebtedness to the many ladies who so kindly, throughout every evening of the fair, gave their services as sales-ladies. Enhancing the attractions of the fair by their personal presence and making all the assurance of success doubly sure by their personsive influence.

FINANCIAL. 525MILES OF THE UNION PACIFIC RAILROAD

CLARK & SONS,

LEESBURG, PA.

Running West from Omaha Across the Continent. ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Menustains, and it is expected; that the track will be laid thirty-miles further, to Evans Pass, the lighest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mite, while that of many settern, roads is over one hundred. Work in the rock-cuttings on the western slope will continue that the valuer, and there is new no reason to did that the valuer, and there is new no reason to did that the ontire grand line to the Pacific will be open nor business in 1870.

The means provided for the construction of this great national Work are ample. The United States grants its Six Per Coal Bonds at the rate of from \$10,000 to \$48,000 per mile, for which it takes a second lien as security, and receives payment to a large_lib.not to the uill extent of its, claim in services. These Bonds are issued_as_each twenty-mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, reprire shops, stations, and all the necessary rolline stock and other quipment.

The United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, reprire shops, stations, and all the necessary rolline stock and other quipment in the Plate Valley is among the most fortile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own Fig. 1 and iton. Oakes Ambas are Trustees for the Bond-bolders, and deliver the Bonds to the Company only and ere did for the sent print of the company of the Company is also authorized to the Company is an actual and productive value.

EARNINGS OF THE COMPANY. EARNINGS OF THE COMPANY.

EARNINGS OF THE COMPANY.

Abprosent, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to/pay the jute est on-sil the Bonds the Company can issue, if not another mile were built. It is not doubted that when the read is completed the through traffic of the only line connecting the Atlantic and Pacific States will be no competition; it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the super-ission of Government officers, and to a large-extent with Government money, and that its bonds rur issued under Government direction. It is believed that no similar security is so carefully guarded, and cortainly no other is based upon a larger of more valuable property. As the Comp in 1/2 s.
