The State Central Committee. The members of the Republican State Central Committee met on Tuesday last in the city of Philadelphia. But two of the

most remote and smallest counties were un Mr. Grow, the Chairman, called the Committee to order, and after some preliminary arrangements, George W. Hamersley, Esq., late the efficient clerk of the Committee, wa re-appointed, to be assisted by J. R. McAffee Esq., of Westmoreland. Both these gentlemen are well acquainted with the political affairs of the State and will do their work

effectually. The following preamble and resolution were unanimously adopted by the Commit-

WHERRAS. The members of the Republican State Central Committee are fully convinced that Andrew Joinson is guilty of the high crimes- and misdemennors with which he stands charged before the Impeachment Court, constituted in accordance with the laws of the country, and that the alarming state of affairs as they now seem to exist at Washington demands an averaging of tate of affairs as they now seem to each Washington demands an expression of opinion on the part of men of all parties who have the welfare of their country at heart.

Resolved, That profoundly impressed with Resolved. That profoundly impressed with the solemnity of the issue at Washington between Government and anarchy, unbridled usurpation and the supremacy of law, we but reflect the unanimous and carnest convictions of the faithful people of Pennsylvania in demanding the conviction of Andrew Johnson upon the grave charges preferred against him by the people of the nation, through their representatives, believing that there can be no peace, no safety, no respect there can be no peace, no safety, no respect for law, in a large portion of the Union while the apostate usurper remains in the Presidential chair.

The Republican National Conven tion will meet at Chicago next Wednesday. Gen Grant will be nominated for the Vice Presidency there are the names of a number of strong men presented, and the contest for that position will be a warm one. Who the lucky individual will be no one can at this time tell, but it must be a man who will not prove a Tyler, a Fillmore, or, if possible, worse than both, a Johnson. Mr. Johnson knew his men before the day of judgment came, as the result thus far shows. It is interesting to know why he was able to count upon them so confidently and safely. A NEW YORK letter to the ston Post Bo (Dem.) thus refers to the July Convention and the candidates :

An earlief day might be advantageous to Mr. Pendleton, but Mr. Pendleton goes for greenbacks and Mr. Belmont does not. Pendleton, I may remark, is rot in favor with prominent Democrats here. Most of these gentlemen would rather let the bond question alone and Mr. Pondioto question-alone, and Ar. Pendictor seems to have a pechant for agitating it. Therefore, he is not in favor with them. They would prefer either Horatio Seymour or Gen. Hancock, and you may be sure that these two names will be strongly urged on in the Conventiou—provided Seymour will allow fits name to be used at all. I have noticed however, that Gor. and they think Seymour locks this Still, if he gets the nomination. This missile, after hav ing been preserved as a memento for several years, was thrown aside, and ultimately found its way into the coal bin. On Mon day last, the shell, without being observed, vas shoveled into a bucket of coal and from thence carried to the cook stove where the contents of the bucket were thrown upon the fire. THE FALLEN BRAVE.—The decore ion of the graves of those who fell in the defence of their country has been assigned for the 80th of May, by Gen'l. Logar Jommander-in-Chief of the Army of the Re public. The custom prevails at the South, and was suggested no doubt by a practice common in France of placing wreaths coming flowers upon the graves of depart ed relatives and friends. It is a custom nowever, worthy of general adoption, and a day especially assigned for honoring the dead will give a significance to the occasion which will be productive of good. General Logan prescribes no form of ceremony, but leaves it to the different Posts to devise the own plans for keeping green the memor of fallen comrades. Every soldier's grave in Cumberland county on that day should be crowned with floral emblems, for the living can pay no more beautiful tribute to

the fallen brave. Post No. 114, of this place we understand has the above order under consideration and in due time will announce to the publi their action. Should they be able to make the necessary arrangements they will expect our citizens to cooperate with them.

THIEVING .- The petty thieving of dishonest men in husiness is beginning to business are competent judges of goods, and attract the attention of communities, so that we may look for reforms in huckstering and merchandizing, which will relieve the consumer of much of the burdens by which he is now constantly kept pressed within the bounds of poverty. One of the great evils of trade is the custom of selling certain articles by measure which should be sold by weight. There would be as much sense in seling a pin stoak by measure, as there is in measuring carrots, string beans and corn. If they were sold by weight, the purchaser would always get the worth of his money. Wheat, rye and oats should all be sold by weight; so should potatoes, in fact, all produce. The balance scale weighing is the fair way of doing business. Experts who are accomplished in handling a half bushel or peck measure, know just_how to manage their produce to defraud a purchaser; so that besides paying enormous prices, the

A plain statement of facts. I inherited Scrofula, and many of my relations have died of it. In 1839 my case was frightful. Tumors and ulcers spread until 1842, under the advise of my physicians I went to Avon Springs. I received no benefit—tried every medicine and did everything I could. I had to rest

my arm on a cush lon, and had not been able to raise it to my head for over a year. The discharge from two ulcers was nearly a plint aday. Amputation was eccommended; but pronounced dangerous. I could not sleep, and my sufferings were intolerable. A

friend brought me an English physician who applied a salve with which he said he had accomplished ex-
