Moffat's Life Pills and Phoenix Pitters vere first-used in private practice in 1825. They rere introduced to the public in 1835, since which time their reputation has extended, until they have a sale in excess of all other Cathague and Purifying Medicines. There is hardly a family among civilized nations who have not personal evidence of their beneficial-effects. Their great-success-is-owing-to-their uniform reliability in cases of Constitution, Billious and Stomachie diseases, whether of long or short duration. They are entirely vegetable in their composition, and harmless to the gentlest infant. One ingredient opens the pores of the skin; another is diuretic; and stimulates proper action of the kidneys; a third is emolliont, loosening phlegm and huanl cathartic, and cleanse the stomach and bowels from unhealthy secretions.
