DRUGS! DRUGS!

Dr. D. Cornman having to relinquish an extensive practice, as well as his drug business in the city of Pittsburg, several years ago on account of ill health, has now opened at No. 38 North Hanover street, between office's of Drs. Rieffer and Fitzer, a DRUG STORE, where he has and is receiving every few days a pure stock of Drugs, Chemicals, Dye Stuffs and everything generally kept in a well-regulated City Drug Store. Prescriptions carefully compounded and family receipts will receive special care. The Dr. can be consulted at any hour, at his office, back of his store, or at his dwelling, No. 112 North Hanover street, after store hours. Remember the place No. 38 North Hanover Street, Carlisle

TO FARMERS!

*Pacific Guano Company's Soluble PACIFIC GUANO.*

THE ATTENTION of Farmers and other consumers of Fertilizers is invited to this Guano, as worthy of their special notice. Its use for several years in Maryland, Virginia and other Southern States, for all crops, has given it a standard character for excellence unequalled by any other. It possesses all the quickness of Peruvian Guano with permanent qualities not found in that article. 250 lbs of this Guano are found more than equal to 300 lbs of the best Superphosphates. It *ripens* the wheat crop *five to seven days* earlier than the *phosphates*, which act alone gives it incalculable advantages For sale by

JOHN S. REESE & CO.,
General Agents for Pacific Guano Co.,
38 South Delaware Ave., Philad'a,
And 71 South Street, Baltimore.

Bryans Pulmonic Wafers,

## STOVES AND TIN WARE.

IF YOU WANT TO SEE THE most perfect Parlor Stove ever offered to the public, step into

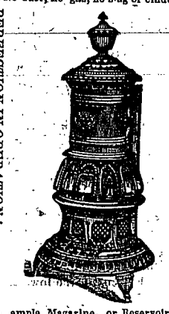
WM. FRIDLEY'S

Stove Store East Louther street, in the rear of Halbert's Grocery Store and see the

GREAT AMERICAN BASE BURNER

in operation. It is a perpetual Burner, and perfect Radiator, as well as a perfect Ventilator of the room, and is warranted to consume less coal than any other Stove of the same size, ever offered to the public, requiring but one ordinary scuttle of small coal once in twenty-eight hours, being perfectly simple in all its working, having a simple slide to regulate the fire for keeping at night, one kindling of fire being all that is required during the winter. No dust, no gas, no slag or cinder.

PERFECTION IN OPERATION!
THE LATTER QUALITY IS PRODUCED BY
THE FOLLOWING IMPROVEMENTS.



ITS IMPORTANT CHARACTERISTICS ARE THESE!
NEATNESS IN DESIGN!
COMPACTNESS IN SIZE!

1.—An ample Magazine, or Reservoir, for Coal, having a free discharge mouth, the magazine being adjustable to different heights of six to nine inches from the grate, so as to accommodate the supply of Coal as to its size and quantity, thus permitting the maintenance of a certain depth of coal for active combustion within the fire-pot (whether it be of nut or stove size), which is the only way to burn Anthracite coal to advantage. Different sizes of coal require more or less depth for perfect combustion.

2—A Funnel, or Hopper, for the passage of the coal to the magazine is so arranged as to permit the introduction of fresh coal, without allowing any escape of fumes and gas into the room; and further, when the Stove is left with its top uncovered, compelling any fumes that may escape from the supply in the reservoir, upwards to its top, to pass over the top of the reservoir into the surrounding flue, and so to the base and outlet.

3.—A Fire-Pot with a continuous Flue, over its entire upper edge and down its whole body to the base and outlet flues by which means the heat is transmitted, not in separate lines several inches apart, as is usual in downward draft Stoves, but by a continuous sheet of flame in contact with the entire circumference of the outer casing of the Stove, from the top of the Fire-Pot downwards, giving a far more extended surface of radiation of the heat that any downward draft Stove extant.

4.—An ample Grate Surface and Air Passages, and a complete arranged Grate, for shaking and dumping, with a good size Ash Pan to receive the ashes and cinder.

☞ We also wish it to be noted, that there is an absolute

SECURITY FROM EXPLOSIONS OF GAS!

upon the removal of the cover from the Stove, which as commonly occurs upon the removal of the covers with other Magazine Stoves, for such is the effect of the Funnel, as constructed and arranged in reference to the Magazine and its surrounding Flue, that NO GAS CAN ACCUMULATE IN THE UPPER PART OF THE MAGAZINE TO EXPLODE. Nor can a current of air, or draft, be created upwards through the Magazine to inflame its contents, which happens with other Stoves injuring and destroying the Magazine itself.

Every feature of this Stove is calculated to effect.

☞ ECONOMY! ☜

IN THE USE OF FUEL, DURABILITY IN ITS CONSTRUCTION AND SYMMETRY IN ITS PROPORTIONS.

In addition to the above Stove, Fridley keeps on hand a full supply of the best Cook, Parlor and Office Stoves.

Tin and Sheet Iron work of all kinds on hand, and Spouting, Roofing and Jobbing of all kinds, done at short notice, and of the best material, Fruit Cans, and Jars of the most approved patents, and in conclusion the Best Portable and Brick Set

Furnaces,

ever offered to the public. For reference call on T. Conlyn; F. C. Fleming; Dr. Geo. Neidigh; A. L. Sponsler; H. Saxton; Prof. Hillman; D. J. Leidigh; J. Bosler; and others.

29nov-67ly

LADIES' MISSES and CHILDREN'S Boots and Shoes, of the very best makes, at cost to close out the stock.

C. O.

Manhood, How Lost, How Restored.

Just published a new addition of Dr. Culverwell's Celebrated Essays on the *radical cure* (without Medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc., also, CONSUMPTION, EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically.*

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address *postpaid*, on receipt of six cents, or two post stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,

CHAS. J. C. KLINE & CO.,
127 Bowery, New York, Post-Office Box 4,586.

July 68-1y.

## MISCELLANEOUS.

600 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in operation. Sixty miles of track has been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is now possible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive

I.—A Government Grant of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A Government Grant of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation and will be a source of large revenue in the future.

III.—A Government Grant of United States Thirty-year Bonds, amounting to $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in service rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A Government Grant of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more.* The Government Permits the Trustees of the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is complete, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A Capital Stock Subscription from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—Net Cash Earnings on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the lines to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount.

Are Secure beyond any Contingency.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York

Parties subscribing will remit the par value of the Bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Carlisle by

A. L. SPONSLER,

and in New York

At the Company's Office, No. 20 Nassau Street,

AND BY

John J. Cisco & Son, Bankers No. 59 Wall St.,

And by the Company's advertised agents throughout the United States.

*Remittances should be made in drafts or other funds payable in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.*

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work; the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's office or to any of the advertised agents.

JOHN J. CISCO, Treasurer, New York.

CHARLES WILLIAMS

HEATING AND VENTILATING WAREHOUSE,
Nos. 1132 & 1134 Market Street,
PHILADELPHIA.

Has an entirely new heater. It is constructed so as to at once command itself to general favor, being a combination of wrought and cast iron. It is very simple in its construction, and is perfectly air tight; self-cleaning, having no pipes or drums to be taken out and cleaned. It is so arranged with upright flues as to produce a larger amount of heat from the same weight of coal than any furnace now in use. The hygrometic condition of the air as produced by my new arrangement of evaporation will at once demonstrate that it is the only

HOT AIR FURNACE

that will produce a perfectly healthy atmosphere. I am now making five sizes of PORTABLES, and four for Masonry.

RANGES,

Special attention is call to my NEW GOLDEN EAGLE COOKING RANGES, as I feel assured there is nothing in use that can compare with them, as regards their durability, economy and efficiency, with a large assortments of Low Down Grates, Fire Place Stoves, Registers and Ventilators. Send for illustrated circulars.
