public attention. Our manufacturing machines, for other pulsy see, are too well known to need comment

MACHINI. TWIST—We have recently enlarged our Sik Mills in Newark, N.J., and furnish them with the latest and most improved machinery, which is being operated by highly skilled, labor. We know and feel the importance of not only supplying the users of the importance of not only supplying the users of the importance of not only supplying the users of selfing by weight has given manufacturers the opportunity of 86 heavily which the well self by massung rather than by weight. The system of selfing by weight has given manufacturers the opportunity of 86 heavily weight. Selfik in the process of dyeing as not only to greatly lujur its quality, but also convey a wrong inpursion about it quantity. In this respect we mean to be above suspector. The manner in which the sizes of silk are graduated is also a matter of great importance, but we use the greatest possible care that the graduality-shall-be-exceedingly accurate. In addition to manufacturing from the best quality of raw silks. The recembers of thread and beauty of fi, the of the manufactured article will not, we think, be soon surpassed. Each spool of silk manufactured by us, of any particular rise or letter, irrespective of we the, contains the number of yards printed thereon. Longth, strength, size, quality ard finish of the thread are to be looked to rather than weight. We are now silk manufacturers on a reg scale, and feel that a large trade cas only so estimed by us in furnishing a superior article at a lafe price 1 to the brands of Twip it effected at less price than ours, purch assers may: "re swed that it is inferior to quality, defi in the quality, or look.

We have ard shalk keep its stock at our Central Office, and various agencies, Taskt. of all sizes, and of the various colors and which will be sold at New York prices. The conde faid Brikennaker.

other companies or not, the Government will cop ply with all its contracts with the Union Paul Railroad Company: Nearly the whole amount-bonds to which the Company will be entitled hav FIRST MORTGAGE BONDS AT PAR.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, and more. These Bonds are a First Mortgage upon the entire road and its equipments.

THEY HAVE THERT YEARS TO RUN, AT SIX PER CENT, and, by special contract, both PRINCIPAL AND INTEREST ARE PAYABLE IN GOLD.

THE SINGER MANUFACTURING CO'S NEW FAMILY-MACHINE-No-chter-family. Sevening Machire has so., phily won favor in the household. The very lar a saiso if that popular (machine has sown by of left is a transfer exceed those of any other roundings) and the sevening to fix real merits—hence its get and growing to fix real merits—hence its get and growing to fix real merits—hence its get and growing hope in the sevening to fix real merits—hence it get and growing to fix really under your favor of the sevening to fix and you have sevening to fix and you have sevening the fix and you have sevening the fix and with the numerous attachments for Luminot cord any tuckin, quilting, trimming, Lod's, but ding. Ac., and embroides high fix the nost perfect of all mainly evening has been men and the different machines. Aby one who will different machines default to make the men and the different machines default in the sevening for the men you will be seven to the default of the men you will be seven to the default of the men you have seven to ready to prove feen, and all we ask is a trial, for observation of the men you had so you can be come for the men you had so you can be presented to the men and the work is a trial, for observation of the men you had so you can be come for the men you had so you can be presented to the men and the work is a trial, for observation of the men you had so you can be presented to the men and the men of the men you would be a seven to the men and the seven had that this contract is in an respective field obligation.

Such securities are generally valuable in proportion to the longth of time they have to run. The lost six ser cont. interest bonds of the U. S. (the '.1.) will be due in 12 years, and they are worth 112. If they had 30 years to run, they would stand at not less than 125. A perfectly safe rest Mortgage Bond like the Union Pac'ts should approach this rate. The demand for European interest is aiready cont. derable, and on the comapproach this rate. The demand for European in vostment is already conderable, and on the com pletion of the work will doubtless carry the price to a large premium. SECURITY ON THE BONDS

of our new simily machines, above referred to, are not only nume one, but highly use all for the purpose for which they were intended. They need only a trial to show their greet value. Among the most recent of the attachments is the It needs no argument to show that a Frst Mort-gage of \$25,500 per mile upon what for a long time must be the only railroad connecting—the Adjantic-and-Pasifier-States is reserver; ascora. The entire amount of the mortgage will be about \$30,000,000, and the interest \$1,500,000 per annum in gold. The present currency cost of this interest is ir-s than \$2,500,000 per annum, while the gross carnings for the year 1805, FROM WAY BUSINESS only, AN AVERIGE OF LESS THAN OF MILES OF ROAD IN OPERATION, WERE MORE THAN

A. L. SPONSLER, And by the company early subscribing through local agents, will look to them for their subscribing through local agents, will look to them for their subscribing through local agents, will look to them for their subscribing a report of the work to that date, and a more complete statement in relation to the value of the bunds thankean be given in an advertisement, which will be sent irree on application at the Company's effices or to any of the advertised agents.

HOW LARGE A "BUSINESS IS IT SAFE TO PREDICT FOR THE GREAT PACIFIC HALL-ROAD!

We would give the following facts derived from Shipping List's, Insurance Companies, it is add and governt information:
Ships going from the Atlantic around Cape Horn, 100 Steamship a connecting at Panama ith Or different and China, 55.

Overlaur : Trains, Stages, Horses, etc., setc.

Here we have two hundred and thirty thousand California h eve been nearly as numerous ho ... coing ..

HOW MANY P SSENGERS ARE THERE. We make the following estimate: 110 Steamships (1 oth ways) 70,600 (actual for '65) 4,000 e 4.000 estimated

Number per amuum 174,000 Present piles (averaging helf the cost of the ateamships), for both passengers and tonnage gives the following result:---174,000 passengers at \$100 460,000 tous, rated at \$1 per aubic fout . .

Haring calculations upon the above figures with out allowing for the large increase of business which can exful the looked for, then estimate the running expense at one half and we have a not lucome of \$1',529,050; which, after paying the in-terest on the Virst Mortgege Bonds and the adnet autual income of \$9,000 000 over and above al

expenses and interest.

The First Mortgage Bouds of the Union Pacific Railroad Company and the First Mortgage Bonds of the Central Pacific Railroad Co. are both, princi-pal and interest, payable in 101 coint they pay la per cent. interest—in-gold moin, and run forhirty years, and they cannot be paid before that time without the consent of the holder. First Mortgage Gold Bonds of she Union Pacific Railroad for sale at bar and accrued interest, and oad at 108 and accrued interest.
