PRINCIPAL AND INTEREST keeping of that God who had thus far preserved him in the midst of every PAYABLE IN GOLD.

PAIABLE IN COLD. Tho U.S. Supreme Court has recould decided that this contractive null respects valid, and of legel obligation. Such securities are generally valuable in pro-portion to the leogth of time they have to run. The lob goes six per crue, interest bonds of the U. S. (the 551's) will be due in 12 years, and they are worth 12. If they had 30 years to run, they worth 21. If they had 30 years to run, they would stand at not less than 125. A perfectly rafe interface bond likes the Ulion Pacific Biolud approach this rate. The demand, for European in-piction of the work will doubtless carry the price to a large premium. SECURITY ON THE BONDS.

SECORITY ON THEE BONDS. It needs no argument to show that a Frat Mort-ray of \$20,600 per mile upon what for a long time naits be the ouly inifrond connecting the Atlantic and Pacific States is FERETCRY SECURE. The as the amount of the mergage will be about in gold. The present currency took of this interest is less than \$2,600,000 per annua, while the gross earnings for the year loss, FROM WAY BUSINESS only.
