MARSHAL APPOINTED .- A private telegraphic despatch from Washington. states that Gen. Gregory, of Philadelphia, has been appointed United States Marshal for the Eastern District of Pennsylvania, in place of Gen, Ely, deceased.

Bor Connecticent, was on Wednesday of last week emancipated from the thraidom of Democracy. The inaugural of the new Republican Governor has two noteworthy points of more the capacity to build as fast as it is than local interest. It urges the ratification of the XVth Amendment, and it advocates laws securing the rights of married women in property.

THE Democratic Legislature of Ohio is deliberating upon fresh penalties against voters of visibly admixed blood. They regard the approaching adoption of the XVth Amendment with the same sort of horror which African savages exhibit at the approach of a solar eclipse,-and attempt to avert the phe- | structure, as it did ten years ago La-Snomenon by similar means-by making a tremendous noise to scare the intru der away.

HORACE GREELEY contradicts the statement that he accepted then declined a place on the Commission to examine and report on the condition of the completed Pacific Railroad. He says he declined the appointment simply because his business would not allow him to leave New York ; otherwise he would have gladly accepted. Mr. Greeley expresses his gratification that so competent and worthy a man as Gen. Hiram Walbridge has been selected by the President in his place.

Pennsylvania and Massachusett lead off in taking care of the soldiers' orphans, and it is a distinction of which they may be justly proud. Some sixteen States have provided by legislation for the helpless children of our fallen defenders, but only in three or four have the acts been carried into practical execution. It is hard to realize this, and sad to think of it, but it is the fact, and one that cannot be too often or too, strongly presented. The great State of New York, for instance, has done absolutely nothing.
