CUMBERLAND VALLEY. This beautiful and historic valley, one of the fairest and most fortile in the State, presents more than its usual attractions this season. The nent and comfortable furm houses which are crided upon its surface and partly concealed amid shade abd fruit trees of are or died upon its surface and reason cancelled amid—shade and fruit trees of laxurious growth, present suph an air, of beauty, health and repose that the traveler, as he hurries by in the heated failroad carror lumbering conveyance, almost on the failroad carror lumbering conveyance, almost of court which they seem to be surfunded. Cumberland is one of the garden spots of our Commonwealth. Its lands are of superior quality and its agricultural importance second to none in the State. There, is no town more pleusantly situated, more hand, somely laid out, or can beast of neater and more desirable buildings than its county seat—Carlisle; and Mechanishurg and several others of its towns, are improving quite rapidly in everything which is calseveral others of its towns, are improving quite rapidly in everything which is calculated to mark out their future greatness and importance. To appreciate the beauty of Cumberland county it is necessary to travel through it and become acquainted with its people, who may now be justly ranked among the most enterprising and intelligent in the country.—York True Democrat.

We hope that the time is not far distant when, in addition to the allusion contained in the above clipping, as to the advantages of our town as a place to dwell, it may be said that as a business location it can not be excelled. The opening of the South Mountain R, R. should mark an crain our history, and induce the building of iron manufactories, which can here, as well as along the banks of the Susquehannah, find superior advantages. We have an instance of what can be done with a little effort, in the prosperous condition of the Carlisle Boot & Shoe Manufactory Its work is superior, and fast gaining good name throughout the State, to such an extent as we learn, that the capacity of the establishment will e'er long have to RYE. be enlarged to meet the lacreasing demand upon it. Capitalists of our town will you build up its manufacturing interests?

ARRIVAL OF A DISTINGUISHED OPTICIAN. - Dr. Bernhardt, the celebrated optician, has arrived in this place, and optician, has arrived in secondary at the BUTTER Rentz House. Dr. B. has a world-wide LARD, TALLOW, reputation as the very head of his profession, and comes here encorsed by ex-Gov-ernor Curtin, of Pa., and other distinguished gentlemen at the Capitol of the State all of whom have availed themselves of his professional skill with great and decided benefit to themselves. As Dr. Bernhardt's protessional engagements will not admit of a long stay among us, we would urge those of our readers who may suffer rable kinds on hand. We have also on hand a full from defective or impaired sight, to call upon him at once and avail themselves of his professional services. He can and Willow ware, Fish. SOMETHING NEEDED IN EVERY House.-Every man's house, according to good old English law, is "his castle;" but during summer time, in our country, if the avail but little against those enemies which enter when sheriff and writ cannot. The screens, manufactured by the Adjustable-Window Screen Company, 628 Market street, Philadelphia, are offered as a sure remedy against the above annoying pests. This Company have brought out an article which, for artistic appearance and practical use, is unexcelled. Their Patent Screen combined in two frames, made to slide by each other, and kept in position, by iron. dow. The screen, thoreover, is in itself a handsome and ornamental piece of furniture to any room. We know from observation and practi-

THE BEST.—Tonics have of late years gained rapidly in public estimation and are far more generally employed by first-class physicians than they once were. The reason for this is that it is a "generally established fact that wholesome tonics used in moderation daily for years do no loss their virtue, neither do they injure the system. That are the fact that they are the second to the state of the second to the system. tem. They act in fact like air and exercise, as not as "medicines," which are intended solely f property of stimulating the appetite, strongthenia he nervous system, and of imparting strength Vomen generally derive benefit from them ever more than mon, their system being more liable to debility, and exhaustion. We have again and again in our experience seen the good effects of ton where the eyes had grown dim and the cheeks pa

The heat established bitters before the America the b st, since among the scores of really excellen litters now current, a poor article has no chance success whatever. It is a favorable feature in the advertisement of the proprietors of Dr. Bicevers's Tonic Herb's liters, that proprietors of Or. Scawed Tonic and Mandrake Pills, will: cure Corrungtien, Liver Complaint, and Dyspepsis, if taken according to directions. They are all three-to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the apperie to become sgood: the food digests and make good blood: the patient begins to grow in deah, the diseased matter ripens in the lungs, and the patient out rows-the diseased may got well. This is the only way to cure cansumption.

To these three modicines Dr. J. H. Schen of Philad-liphs, owes his unrelaxed success in the treatment of pulmonary consumption. The P I monoic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phiegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin in heal.

Liver complaint is one of the most prominent causes of consumption.

The great reason why physicians don't cure consumption is, they try to do to muck; they give medicine to step the cough, to step cillla, to stop night awarts, hockic tevers and by so doing there derange the whole dicestive powers, locking up the servetons, and syontually the patients sinks and dis.

Dr Schenck, in his treatment does not try to signer and they will silk try of their own accord, and one can be cured of Consumption, liver Complaint, Physic point, durant, Cancer, Ulcerated Phreat the surper has consumption of course the lungs are a mas's of inflammation and f.st decaying the lungs that are weaking, but it is the whole body the surper and as of inflammation and f.st decaying the lungs that are weaking, but it is the whole body the surper the surper to make the lungs are a mas's of inflammation and f.st decaying the lungs are a mas's of inflammation and f.st decaying the lungs are a mas's of inflammation and f.st decaying the lungs that are weaking, but it is the whole body the surper the surper to make schenck's three medicines, which will bridge the schenck's three medicines, which will bridge to want found it that found it will discret asks and make cood blood the
